Dulles Feels Chinese Reds Preparing Military Moves To Take Quemoy, Matsus

8 Foreign Born Made Citizens of U.S.

EIGHT MARION COUNTIANS were admitted to the ranks of United States citizens in short ceremonies in Common Pleas Court Monday. Accepting the applicants was Common Pleas Judge Paul D. Smith (extreme left). The new citizens are left to right: John Orlowski, Mrs. Maria Orlowski, Mrs. Mary Davidson Howald; Mrs. Isabella Blyth Davidson, Maxfield Taylor Sheppard, Mrs. Eva Herszkowicz, Joseph Herszkowicz and Mrs. Aslug Irene Anderson Lorentz.

Nugent Cleared Of Charges by Court Martial

Army Major Acquitted Of Collaboration With Communists in Korea

FT. SILL, Okla. (AP)—Maj. Ambrose H. Nugent was free today to return to his first love, the field artillery. A court-martial acquitted him of aiding the enemy while a prisoner of war for 38 months in Korea.

His seven-week trial was the longest in U. S. military history.

The court deliberated just over two hours yesterday before acquitting the Army career officer on nine specifications. Seven of the nine colonels on the court were Korean veterans.

First To Be Acquitted

Nugent, 45, was the first of five former Korea POWs tried on collaboration charges to be found innocent.

After the verdict, he broke into a big smile. A handful of spectators rushed to congratulate him.

He said his acquittal was a vindication of military justice. He told newsmen:

"I want to take a short leave for a physical checkup and have my teeth fixed and then I want to resume my career in the Army.

Nugent, of Merrill, Wis., began his Army career with the Wisconsin National Guard 24 years ago and for the past 14 years has served continuously.

Charges Listed

The graying, bespectacled officer was accused of collaborating by making propaganda speeches, forming peace committees, signing and circulating documents detrimental to his country, offering aid to the enemy and foiling escape plans. He based his defense

President, First Lady Suffering Cold Symptoms

WASHINGTON (AP) — President Eisenhower canceled his morning engagements today because of "slight symptoms of a cold" and his wife already was confined to bed with the flu.

James C. Hagerty, White House press secretary, told newsmen the President had remained in his living quarters and canceled his regular weekly meeting with Republican congressional leaders.

Hagerty said the White House physician, Maj. Gen. Howard M. Snyder, was with the President in his living quarters and there prob-

Naturalization Hearing Conducted in Local Court

Eight persons, including two husband-wife combinations and a mother-daughter team, became American citizens in a naturalization hearing in Common Pleas Court Monday.

The two husband-wife combinations were Joseph and Eva Hamelsdorf. Herszkowicz of 247 Elm St. and John and Maria Ilona Orlowski of 336 S. High St.

Mr. and Mrs. Herszkowicz are natives of Poland. Both still bear scars left by Nazi concentration camp brandings. Mr. and Mrs. Orlowski are natives of Hungary.

—:—

THE MOTHER and daughter were Mrs. Isabella Blyth Davidson of 241½ S. High St. and Mrs. Mary Davidson Howald of Prospect. They are natives of Scotland. Mrs Davidson's husband, William P. Davidson, had been granted citizenship here last summer.

Mr. and Mrs. Orlowski spent a short time in a forced labor camp after their home was destroyed by bombardment near the end of World War II. They were liberated a month after their entrance into the camp, though.

They have one daughter who is an American citizen, being born in Marion four years ago. Another daughter, 12, will have to apply for citizenship. Mr. Orlowski said this morning that he and his wife would probably make application for her in the next month.

—:—

THE OTHERS naturalized Monday were Maxfield Taylor Sheppard, of 225 Chase St., a native of Canada; and Mrs. Aslaug Irene Anderson Lorentz of the Key Town Camp, a native of Norway. Her husband, Arthur Anderson Lorentz, was also naturalized here last summer.

The eight were recommended for citizenship by Elbert J. Scantland of Columbus, examiner from the immigration office of the U.S. Department of Justice.

Accepting the applicants was Common Pleas Judge Paul D. Smith. Calvin Oborn, clerk of court, administered the Oath of Allegiance. Judge Smith congratulated the new citizens on one of the "highlights" of their lives.

Following the ceremonies, Mrs. Fanny Benson, chairman of the Americanism of the Capt. William Hendricks Chapter, Daughters of American Revolution, presented each of the new citizens the DAR Manual for Citizenship and small American flags.

—:—

THE NEW citizens were investigated by federal authorities before being recommended for citizenship. In addition, they were also checked by local court authorities, a regular practice in citizenship investigation.

All eight of the new citizens entered the United States in 1949.

In order to qualify for citizenship, the eight had to show some knowledge of local, state and national government operations. They had to comply with a five-year residence regulation and answer simple questions on civic affairs. They also had to learn the Oath of Allegiance.

College Student Shot, Killed in Columbus Theft

COLUMBUS, Ohio (AP)—A young service station attendant, working his way through college, was shot and killed early today in an east end robbery, police reported.

Opened school books were on a nearby desk in a back room where the body was found. Police said the victim, Don Keys, 24, of Columbus, was the lone night attendant at the Checker Oil station on Fifth and Leonard Avenues.

He had been shot through the left temple. Police said a shotgun apparently was the weapon because of the gaping wound.

State manager Peter Lombardi said Keyes, the father of two children, worked nights and attended Ohio State University daytime. He was enrolled in the college of education.

Lombardi said a cash drawer was broken into and emptied in the room where the body was found. The amount taken was not immediately determined. Police Lt. Walter Nice said a single dollar bill was found in Keyes' billfold.

Lt. Nice said the body was found by an off-duty bus driver who stopped at the all - night station. The driver was not identified.

Lombardi said Keyes had been employed at the station for the past few years, working nights to support his family and pay his way through college.

Cloudy Skies and Light Snow Forecast Tonight

Mostly cloudy with occasional light snow was the forecast for today throughout Ohio and the same weather is expected to continue tonight. Low temperatures tonight will range between 24 and 32. Warmer weather is expected Wednesday.

Route 203, south of Newmans, which had been closed over the weekend because of high waters from the Scioto River, was opened Monday night, officials of the State Highway Department reported.

The mercury reached only a high of 29 in Marion Monday, according to local weather observers, dipping during the night to a low of 14. A trace of snow fell during the night. At noon today, the temperature reading was 34.

Senators Told Stock Market Crash Possible

Harvard Expert Says Safeguards Required; Urges Curb on Credit

WASHINGTON (AP)—John K. Galbraith, Harvard economist said today the United States may be in the early stages of a boom-and-bust cycle that could end in a 1929-style crash.

Galbraith told the Senate Banking Committee there are "formidable safeguards" against another such crash. But he spoke in his prepared testimony of "resemblances" between conditions in the late 1920s and today that he said "are certainly interesting and possibly disturbing."

Urges Controls

He urged that the government and Wall Street be ready to halt credit buying of stocks and to put on other emergency brakes if the 1½-year-old bull market shows no sign of slackening in the near future.

The committee called Galbraith and Harold E. Wood, of St. Paul, Minn., president of the National Assn. of Securities Dealers, in its "friendly study" of the stock market in the light of the stock price rise.

Galbraith voiced agreement with stock exchange presidents who testified earlier that the American economy is far stronger than in 1929. He agreed too there are safeguards against a new crash, among them curbs on "wholesale market rigging and fervent salesmanship."

Problem Unsolved

But he cautioned that "the fundamental problem of containing a speculative orgy, once it is well launched, remains essentially unsolved."

Galbraith, who has written a soon-to-be-published book on the 1929 financial debacle, saw such

Panel To Discuss Recreation Needs

A panel of interested individuals will discuss the needs and opportunities for recreation in Marion during a meeting at 8 p.m. Wednesday at the YMCA. Sponsored by the League of Women Voters of Marion, the meeting is open to the public.

Appearing on the panel will be Mayor Harold Robinson, Mrs. O. H. Gearhiser, Dr. A. J. Wagner, Joseph Whisler, Tom Clark Jr., and Arthur Haas.

Mrs. Durward Myers and Mrs. B. N. Salzman are the resource persons for this subject, and Mrs. Robert Kibbey will be the unit leader.

Ohio To Crest At 61.5 Feet At Cincinnati

Predicted Peak To Hit 9.5 Feet Above Flood Stage; Damage Climbs

CINCINNATI (AP) — The U.S. Weather Bureau today advanced the predicted crest of the Ohio River flood here to 61.5 feet.

The previous crest forecast was 61 feet to be reached Thursday morning.

A stage of 61.5 feet would be 9.5 feet above flood stage.

The crest of the flood, which has forced hundreds of families and businesses from shore areas all along the Ohio, slowly was moving downstream. The weather bureau, however, called it a "major" flood because more than two-thirds of the 981-mile river was at least five feet over flood stage.

There was cheering word, however, as the weather bureau reported there still are no signs of any heavy rains in the Ohio Valley.

There was a forecast of about two-tenths of an inch of rain here in the period from Thursday to Sunday.

Col. J. L. Person, the Ohio River engineer, said damage would probably run to several million dollars.

"There has been a good deal of scattered damage," he said. "But there has been nothing like a catastrophe. The low-lying areas which get wet every few years are in water now."

As the swollen waters spin down the Ohio, more and more families will be forced to flee.

The Red Cross said 1,000 families in West Virginia, from 500 to 600 in Kentucky and 200 in Indi-

GOP's Leader In Senate Sees Tax Cut Defeat

WASHINGTON (AP) — Sen. Knowland (R-Calif) predicted at the White House today that the Senate will reject "by a very substantial margin" any proposal to cut income taxes $20 a person.

Knowland, the Senate Republican leader, also forecast rejection of "any compromise along those lines."

Knowland met with newsmen after he and other Republican congressional leaders had discussed the tax situation with aides to President Eisenhower.

The President himself did not attend today's conference, the regular weekly White House meeting of GOP Congress leaders, because of what his press secretary described as "slight symptoms of a cold."

Knowland said he hopes the Senate Democratic leadership will call up the bill for debate later in the week He added indications are the vote will come early next week, possibly Monday.

There were indications that efforts by Sen. Lyndon Johnson (D-Tex) to rally Senate Democrats behind the tax cut had been only partly successful.

BLIND PARENTS TO KEEP BABY. Harold Hathaway, 33, and his wife, Georgia, 32, discuss by hand their victory in Summit County juvenile court in Akron, O., where Judge Russell Thomas ruled that the blind and deaf couple could keep and care for their two-week-old son. County welfare authorities had sought to take the baby and place it in a foster home, but the judge ruled in favor of the parents, who came to court with the support of many neighbors and friends.

Fund-Raising Firm Employed

United Appeals To Hire Experts To Aid in Drive

The board of trustees of the United Appeals of Marion County Monday night voted to hire the American City Bureau of Chicago, a professional fund-raising firm, to assist in this year's United Appeals campaign.

In a meeting at the YMCA, the board empowered Jackson H. Taft, United Appeals president, to sign a contract calling for eight weeks' on-the-scene help by an American City Bureau representative.

Under terms of the contract, the representative will be in Marion two weeks in April to survey the local situation and make preliminary campaign plans that can be carried on by the United Appeals staff during the summer.

He will return in September and will remain six weeks, including the period of the campaign.

Taft pointed out that the American City Bureau is one of 16 top - flight fund-raising organizations in the country and that all of the 16 work on a fixed-fee basis only. Consequently, the total cost to the United Appeals of Marion County will be the $4,400 called for in the contract. The fee is based on a weekly rate of $550. The American City Bureau will pay the expenses of its representative.

The decision to employ a professional fund-raising firm followed several months of investigation and study by E. J. Kinter, executive secretary of the Community Foundation and United Appeals;

Communists 'Not Bluffing' In Island Bid

Secretary of State Will Speak to U.S. Tonight; Briefs Congress Today

WASHINGTON (AP)—Secretary of State Dulles was described today as believing the Chinese Communists are not bluffing and will shortly make some military move against Nationalist-held islands opposite Formosa.

The secretary, who returned Sunday from a trip to the Far East, had plenty of opportunity today to outline such a view, either at secret briefings to congressional committees or in a report tonight to the nation.

Has Busy Day

He is making a day of it: The Senate Foreign Relations Committee in the morning, the House Foreign Affairs Committee in the afternoon and national radio-television network tonight.

The recorded half-hour talk will be carried over radio by CBS (10 p.m.), ABC (10:30 p.m.) and MBS (11:30 p.m.). A film will be televised over Columbia (11:15 p.m.).

Officials said Dulles appeared convinced the Chinese Communists would make some move toward carrying out their threats to attack Formosa. He was represented as feeling that military action against coastal islands probably would be coupled with subversion efforts directed at Chiang Kai-shek's Formosa refuge and its outposts.

Silent on U.S. Strategy

He was said to be unwilling, even in private conversations, to spell out American intentions on defense of the Nationalist-held islands of Quemoy and Matsu, just off the Red mainland opposite Formosa.

Dulles and President Eisenhower have said Quemoy and Matsu will be defended if attacked by Red China in an obvious drive to conquer Formosa.

Dulles reportedly says he made no commitments when he and British Foreign Secretary Anthony Eden discussed the Formosa situation in the Far East.

To Be Sales Consultant

John Courtright Resigns As Shovel Co. President

The board of directors of the Marion Power Shovel Co. announced today that John P. Courtright has resigned as president of the company and its subsidiary, the Osgood Co. He continues as a member of their boards and will serve the companies as a sales consultant.

Pending election of a successor to Courtright as president, the board has designated Milton T. Smith, vice president and general manager, to serve as chief executive officer of both companies.

Both Courtright and Smith described today's announcement as another step in a planned program that has been under discussion for a number of months. They said the move is part of an arrangement to clear the way for the expanded operations and diversification of products announced several months ago after the acquisition of Marion Power Shovel Co. by Merritt-Chapman & Scott.

—:—

"MY BACKGROUND and experience have been centered, obviously, in the sales and service phases of our company's business," Courtright said. "That area of work with our company naturally is closest to my personal interests, and my contacts with our customers and friends throughout the world have been handicapped by the amount of time required for general administrative work. In my newly-created position, I will be able to concentrate my efforts and time on customer relations."

He added that releasing his time to concentrate on sales work has been a part of the plans for some time. He said he had requested management help to relieve his schedule and allow more time for customers in the various industries Marion serves.

Smith explained that his coming with Marion Power Shovel Co. was with the understanding that Courtright would continue to play a key role in the sales and service phases of the company's operation. "My own background," Smith explained, "has been more on the administrative than in sales, and I have envisioned a strong team functioning around Courtright and myself. This move is part of a program that can help hasten our expansion of activities and enable us to serve our customers better."

—:—

COURTRIGHT HAS been connected with the Marion Power Shovel Co. since 1927 when he joined the firm's sales force in Chicago. He came to the general offices in Marion in 1937 as sales manager and in 1941 was made vice president in charge of sales.

He was elected executive vice president of the company in June, 1951, and was elected its president the following April. He was elected president of the Osgood Co. after its acquisition by Power Shovel last year.

Eden Calls on Chiang To Quit Coastal Islands

LONDON (AP)—Foreign Secretary Anthony Eden today called on Chiang Kai-shek to withdraw his Nationalist armed forces from the coastal islands off China.

Giving the House of Commons a report on his Bangkok meeting with U.S. Secretary of State Dulles and tour of Southeast Asia, Eden praised both the United States and Chinese Communists for relaxing tension over Formosa.

However, he said sounding out Peiping on a cease-fire had led him to "come reluctantly to the conclusion that the necessary con-

Disney, Thomas Get 2 Each

Stars on ABC Network Share in Top TV Awards

HOLLYWOOD (AP)—Walt Disney and Danny Thomas, clutching two Emmies apiece, today proved that television has three solid networks.

The two ABC stars, along with NBC's George Gobel and Loretta Young, plus Art Carney and Audrey Meadows of the CBS's Jackie Gleason Show, dominated last night's seventh annual Emmy awards of the Television Academy.

The show, sparkling with entertainment, was nationally televised over NBC-TV.

Best Variety Series

Disney, already the possessor of 22 movie Oscars, won an Emmy for the best variety series on TV And his "Operation Under Sea," an episode in the Disneyland series, was adjudged the best individual program of the year.

Thomas, star of Make Room for Daddy, was named the best actor in a regular series. His show was selected the best situation comedy series.

Best Western Series

John Daly of ABC won for being the best news reporter, and the U. S. Steel Hour, also on ABC, was named the best dramatic series.

The six awards out of a possible 21 gave ABC its healthiest showing yet in the awards. NBC and CBS, which heretofore had dominated the annual awards, got seven apiece.

The remaining award went to

Upper Sandusky Barber Celebrates 80th Birthday

UPPER SANDUSKY — Back when a shave and haircut were two-bits Upper Sandusky's senior active barber, Judson K Perrine, 80, learned his trade in a two-chair shop as an apprentice to Steve Hart

That was 64 years ago and "Jud" was a proud 16-year-old when he drew his first week's pay of $1 50 He was drawing $6 a week when he married in 1901 Four years later, he opened his own shop The shop and all its equipment were lost in February, 1929, when a fire that started in an adjoining room leveled the Van Marter block on N Sandusky Ave

After the disastrous blaze, Perrine worked in other Upper Sandusky shops for a time, but has operated his own business for the last 20 years

— —

CURRENTLY HE IS the owner and operator of a small one chair parlor three doors north of the bus station on the square Open six days a week, he works from 8 a m to 6 p m , but doesn't consider the hours excessive when he recalls the extra evening and Sunday morning work times of earlier years in the business

A lifetime resident of Upper Sandusky, Jud has shaved three generations of many local families and in some cases is cutting hair for a fourth generation that has not yet quite reached the need for a shave

He and Mrs Perrine celebrated their golden wedding anniversary on June 1 1951, at their home on N Fourth St where they have lived since their marriage They have one daughter, Mrs Thomas E McCarty and a granddaughter, Linda Lou McCarty of Galion

— —

DAUGHTER AND granddaughter assisted Mrs Perrine in preparations for a surprise birthday party for Jerrine on Sunday, Feb 20 The birthday cake was a large one, complete with 80 candles

UPPER SANDUSKY'S oldest barber Jud Perrine who recently marked his 80th birthday, still operates his shop The customer shown here is John Hawkins

Contrary to tradition, this dean of barbers here is not particularly a talkative man and permits customers more than an equal share of the conversation Favorite topics are the sports he enjoys hunting, fishing and horse races As a fisherman he is a straight pole expert and is willing to leave rods and reels to those who like them

Over the years Perrine has enjoyed his work and the everyday contact with community residents His health is good even though he has spent many years of long hours standing at the barber chair The only time he has lost time from work was last year, a two-month period of inactivity caused by illness That two months were according to Perrine longer than all the years he has been barbering

Trucking Firm In Akron Wins Safety Award

COLUMBUS, Ohio (AP)—An Akron firm — Morrison Motor Freight, Inc — is slated today to receive the Ohio Trucking Assn 's top annual safety award, the Trailmobile trophy

Turkey Reliable Free World Ally, Leader Declares

CINCINNATI (AP) — Casim Gulek, secretary general of the opposition Republican party in Turkey today described his country as a reliable, dependable friend and ally '

Addressing a meeting at the University of Cincinnati sponsored by the Taft Memorial Fund he said

' Turkey is filling the gap in the defense of the free world It is combined with the states of the East in that Turkey has great military strength—one division for every million of population There are 23 million people in the country It is the strongest military force this side of the Iron Curtain '

Gulek said Turkey thinks no more about Russia than any other country adding

' It has no nervousness or fear because it has made up its mind if necessary it is going to fight with all of its might Once you make up your mind, you are not nervous any more, and you do not hesitate

I would like to see that in the rest of the world Be strong, be ready, do not hesitate '

Inverted M Substituted for W On Fairfield County Auto Tags

COLUMBUS Ohio (AP)—Memo to Fairfield County car owners

If that ' W' in your license plate looks more like an inverted M', don t worry about it It is

Turns out somebody at Ohio State Pententiary, which produces the plates made an error

Robert T Scott, in charge of license plate distribution for the bureau of motor vehicles, explained the mixup this way

The letter M ' is similar to the ' W" on the dyes from which the plates are made, except that the sides of the M' are vertical and the sides of the W ' are angled outward

The first batch of 1 000 plates made up for Fairfield County went out with a ' W stamped on them (the county designation) But production was evidentally stopped after that batch, and when it was resumed again somebody mistakenly used an upside down M ' dye in place of the ' W

Scott checked with Harold Beck deputy registrar at the Fairfield County motor vehicles bureau Beck reported that license plate numbers from 1 001 to 9 999 apparently were stamped with the upside - down ' M (He went through 5 600, and assumed the rest were the same)

Scott said the inverted ' M s ' will be recognized as W s and no attempt made to change them

The bureau incidentally seems to be having its hands full with this year s issuance of license plates

Last week, some complaints were received that white paint was coming off portions of the plates and sticking to the envelopes in which they were enclosed The bureau said they would replace these paint-faulty plates

Morrow County Begins Drive For Brucellosis Test Program

MOUNT GILEAD — Township captains and team members are being selected to secure a county-wide sign-up of petitions for a brucellosis testing program in Morrow County

Horace Braden president of the Morrow County Dairy Service Unit and Robert Lawyer president of the Morrow County Beef Breeders Association, have indicated that the sign-up campaign will be conducted during this week

Brucellosis eradication has been a goal of cattle owners for many years Formerly known as bangs disease " the infection causes high losse in milk production and aborted calves

Must Have 51 Per Cent

Following the signing of petitions (the petitions for the county must carry the names of 51 per cent of the cattle owners representing 75 per cent of the cattle) a trailer laboratory from the office of the state veterinarian will be moved into the county This laboratory will make use of the new 'milk ring test" whereby it is possible to determine by a test of a sample of milk from an entire herd whether or not the herd is suspected of having the disease It is expected that about five per cent of the herds will indicate reactors These herds will be visited by local or state veterinarians and the individual cows will be blood tested

Farmers with reacting cows will have the option of either selling the diseased for slaughter or keeping them on the farm under quarantine and, through a program of calfhood vaccination eventually building a disease free herd

The entire program from the signing of petitions to the actual testing is optional on the part of individual herd owners

Expect Little Opposition

Little opposition to the program is expected in the county One important reason is that city health departments are rapidly moving toward the point where only milk from brucellosis free herds will be accepted Beef breeders have an even stronger incentive to participate in the program, as their profits depend upon a healthy calf from each cow each year Owners of beef cattle will not participate in the milk ring test Instead, the individual cows will be blood tested

The expanded state program of brucellosis control was started in counties along state lines about four years ago The plan has been to work toward the center of the state and Morrow is one of the last counties to participate in the program

Two states, North Carolina and Maine, have completed an eradication program and are certified as brucellosis free

Fire Closes Maryland Cerebral Palsy Center

REISTERSTOWN, Md (AP)—The Children's Rehabilitation Institute a large private cerebral palsy treatment center, has closed its doors temporarily after a basement fire which routed the entire staff and 70 young crippled patients

The patients, ranging in age from 3 to 25 and none of them able to walk, were carried to safety yesterday by about 50 quick-acting employes

Firemen confined the blaze to the laundry and maintenance room There was some damage to the dormitory on the floor above

Women Interested In Snack Shop To Meet Next Monday

Next Monday has been set for a meeting of women throughout the county interested in taking part in the operation of the Snack Shop in the Marion General Hospital. The meeting will be held in the auditorium of the hospital at 2 p.m.

Organization of women throughout the county to assist in The Snack Shop is already under way, Mrs. John P. Courtright, chairman for volunteer women in the county, reported at the monthly meeting of the Snack Shop committee Monday at the hospital. Women have been contacted and the work of organizing groups has begun at Prospect, Morral, Caledonia, LaRue, Waldo and Green Camp.

While an effort has been made to contact interested persons, anyone who has not been reached and wishes to volunteer her services is asked to attend the Monday meeting. At this time the operation of the shop will be explained and county volunteers organized.

Reports on the Snack Shop show that it fills a long felt need through serving lunches and snacks and the gift shop, the committee reported. To date more than 4,200 sales slips have been checked up on the register. In the gift shop new gifts are being added each week and there is an especially choice line of children's toys. Among the new things added is costume jewelry.

Mrs. Herbert Petrich presided for the business session during which Mrs. Rodney Cox was appointed to serve as secretary for the group. Serving with Mrs. Courtright on the volunteer committee are Mrs. Frederick W. Rea, Mrs. Frederick Merchant, Mrs. Robert Bagley, Mrs. John Prichard and Mrs. M. M. Weinbaum. Information regarding the volunteer service may be had by calling the chairman of any of the committee.

ANPA Appeals FCC Ruling in California Case

Brief Cites Unlawful Discrimination in Award of TV License

WASHINGTON (AP)—The American Newspaper Publishers Assn. today accused the Federal Communications Commission of unlawful discrimination against newspapers in awarding a California broadcast license.

The association, with a membership of about 700 daily and Sunday newspapers, asked the U. S. Court of Appeals to strike down a commission decision denying McClatchy Broadcasting Co. a license for a television station in Sacramento, Calif.

Note Differentiation

The association said that in granting a competing application by Sacramento Telecasters, Inc., the commission demonstrated it "has differentiated newspapers and persons associated therewith as a class."

In a brief filed as a "friend of the court," the association said this action violated the Federal Communications Act and was repugnant to the constitutional guarantee of due process of law.

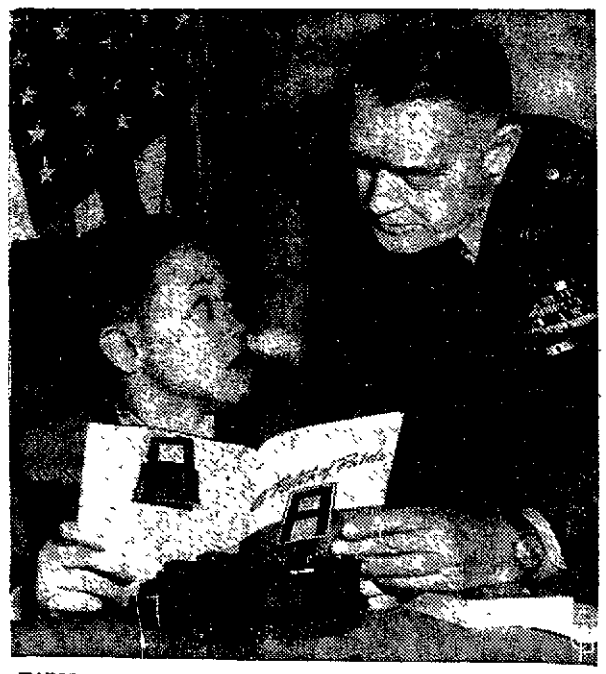
The brief said the decision must be reversed "unless this court holds that the commission is authorized to apply its preference policy for purposes of its own caprice."

No Monopoly Present

In denying the McClatchy application, the brief contended, the commission "attached overriding importance to its doctrine" that radio-TV stations should be controlled by diverse interests. But it declared that the chief stated reason for the policy, "namely monopoly or the threat of monopoly, is not present."

"The commission's decision flowed from its policy of preferring a non-newspaper applicant to a newspaper applicant," the association's brief said. "To accomplish this result it picked and chose among facts, disregarded the overwhelming weight of evidence in favor of applicant (McClatchy), belittled any evidence that did not serve its purpose and finally based its decision on its policy of preference. To reach the decision it reached, it had to resort to that policy. Otherwise, had it complied with the act, it could not have reached it."

James McClatchy, an Irish immigrant, founded the Sacramento Bee in 1857. The McClatchy interests also own the Fresno Bee and the Modesto Bee, and are engaged in radio broadcasting.



FARM BOY, 11, FETED BY THE ARMY. About a month ago, Tim White, 11, Manlius, N.Y., farm boy, wrote a letter to Lt. Gen. Thomas W. Herren, First Army Commander on Governors Island, N.Y. It read: "I'm only 11 years, therefor I am too young to go in the army, but I felt I must do something for the army. If there is anything I can do, please wright me so." Before long, Tim received a letter from the general inviting him to Governors Island as his guest. He is shown sitting at the desk of Lt. Gen. Thomas W. Herren who tells him about military life. The boy also received a framed copy of "The Soldier's Creed," rode to the Statue of Liberty in the general's private launch, lunched in the enlisted men's mess, toured the entire Army post and was taken on a complete sightseeing tour of Greater New York.

Is Being Overweight A Laughing Matter?

Not on your life. Being overweight is a serious matter, and should not be taken lightly. Just take 30 seconds to read the experience of Mrs. C. L. Weakley, 719 Lincoln Pk. Dr., Cincinnati 3, Ohio. Mrs. Weakley writes: "I have recommended Rennel Concentrate to many of my friends after knowing what it has done for me. With Rennel I decreased my weight by 20 lbs. and it has taken away that heavy bloated feeling I always had before. My waistline is 3½ inches smaller, and I'm very proud of this."

Thousands of others have overcome the social and physical discomfort of being overweight with this effective home recipe. It's easy—no trouble at all and costs little. Just go to your druggist and ask for four ounces of liquid Rennel Concentrate. Pour this into a pint bottle and add enough grapefruit juice to fill the bottle. Then take two tablespoonfuls twice a day. That's all there is to it. No diets to complicate your meal planning. No expensive vitamins to fortify your system from weakness while going without food for you can eat normally. If the very first bottle doesn't show the simple easy way to lose pounds of bulky fat and help regain slender, more youthful curves — if reducible excess fat doesn't seem to disappear almost like magic just return the empty bottle to the manufacturer for your money back. Insist on and be sure to get Rennel.

WAC Recruiters Plan Visits to City

THREE WOMEN'S ARMY CORPS RECRUITERS for the Marion area who make regular visits to Marion are shown above. Left to right, they are Cpl. Joy Bowman, Sgt. Norma Teegarden and M-Sgt. Charlotte Garies. One of the three comes here from Ft. Hayes, Columbus, once a month to talk to young women interested in the Wacs. The recruiters appear at the local recruiting station at 123 E. Center St. and dates of their visits here may be obtained from the regular Army and Air Force recruiters at the local office.

Marion Man Injured When Autos Collide

One person was injured in one of six traffic accidents investigated Monday by Marion police. One hit-skip collision was reported by sheriff's deputies.

Carl W. Secrest, 46, of 208 Madison Ave. suffered a mouth injury and an injury to his right arm in a collision at W. Columbia St. and Blaine Ave. at 6:43 a.m.

Police said his car and one driven by Claude H. Massey, 38, of near Marion collided. The force of the impact spun Secrest's car around in the street and into a utility pole on the southwest corner. The utility pole was broken in two, police said. Secrest went to a dentist for treatment of the injury to his mouth and teeth. He required no medical treatment for his arm injury, police reported.

Massey was arrested on a charge of failure to yield the right of way, police said. He was traveling south on Blaine Ave. and Secrest was driving west on Columbia St.

A collision at S. Prospect St. and Duluth Ave. at 7:40 a.m. involved cars driven by Burton A. Riley, 39, of near Marion and Eugene Kirk, 29, of the Twin Oaks Trailer Park. There were no injuries, police said.

Each of the other four collisions caused less than $100 total damage, police estimated.

Hit-Skip Accident

A hit-skip accident, which happened early Sunday morning, was reported to the sheriff's office Monday afternoon by LaRue residents.

A car owned by Mrs. Marguerite Price of Vine St. in LaRue was smashed sometime Saturday night while parked in front of the house.

The car had been struck in the right side and pushed up over the curb. Deputies said extensive damage was done to the car.

Upper VFW Plans Mobile Unit of CD

UPPER SANDUSKY — The Upper Sandusky VFW post is completing plans to sponsor and operate a mobile civil defense unit as a part of the civil defense program of the adjutant general's department.

The unit, under the direction if Cleo S. Grossman of near Upper Sandusky, will include 20 veterans, with 14 to be on call at anytime. Equipment will include a two-way radio, PA system, maces, lights and uniforms.

Training will include instruction periods, drill and field exercises. Instructors will include police, sheriff's officers, civilian defense officers and Army officials.

Meetings, set for 7 p.m. on March 8 and 15 in the former VFW Hall here, will feature the instructions of any Army bomb disposal unit. Police and firemen will attend along with the unit members and the meetings will be open to the public.

There are towns named "Valentine" in Nebraska, Texas, Arkansas and Arizona and one named "Valentines" in Virginia, says the National Geographic Society.

Blast on 'Big Inch' Lights Wide Area In Southeast Ohio

ZANESVILLE, Ohio (AP) — Construction crews worked today to replace a 165-foot segment of "Big Inch" natural gas pipeline ruptured in an explosion and fire outside nearby Roseville, in southwestern Muskingum County.

No injuries were reported in the fire. Flames shooting up to 400 feet in the air attracted hundreds of motorists to the scene.

A spokesman for Texas Eastern Transmission Corp., owners of the line, said the fire was halted by closing valves on either side of the break. The firm gave no reason for the blast.

The company spokesman said the line feeds gas to New York, Pennsylvania and part of New England, but that no shortage would occur in those areas since parallel lines could be shifted.

The blast occurred in a desolate strip - mining section about two miles east of Roseville. The fire burned through about eight acres of surrounding brush.

Fire apparatus was called to the scene from Roseville, Crooksville and South Zanesville.

The Zanesville Times-Recorder said phone inquiries on the fire came from as far as Parkersburg, W. Va., 14 miles away.

"Acquired lands" are those lands in federal ownership which are not public lands, having been obtained by the government by puchase, condemnation, or gift, or by exchange for such purchased, condemned, or donated lands or for timber on such lands.

Feet Take Beating, Physicians Advise

ST. PAUL, Minn. (UP) — If you have "beat feet," it's probably your own fault.

At least, that's the opinion of Minnesota doctors who reported in a state medical association bulletin that the feet take abuse few other parts of the body have to take.

First, feet are not necessarily a "foot long." They stretch during the day, becoming longer in the evening than they were in the morning. They are also longer when you walk on them than when you sit down. And they swell when they're hot.

The doctors said shoes should be purchased with an eye to this process of lenthening and swelling, and that alternating pairs of shoes also is a good idea.

Cramming feet into shoes that don't fit, the bulletin warned, invites corns, bunions, hammer-toes, fallen arches and flat feet. And, what's worse, a disposition to match.

In cities where it is customary to take a siesta nap in the early afternoon, the people often get up very early and stay up late, with performances at the theater often starting at 11 p.m.

A Salute to 4-H

Farm organizations, civic and service clubs, schools and churches are joining this week to honor the boys and girls of the 4-H clubs.

After more than 50 years of 4-H Club work in the United States the organization now boasts an active membership of more than two million, representing more than 86,600 clubs.

Sponsorship of the 4-H club by the U.S. Department of Agriculture was formalized by Congress in 1914. Cooperating in the program are the state land - grant colleges and various county organizations.

The widely publicized four H's stand for head, heart, hands and health. The members carry on a wide variety of projects in farming, homemaking and community service.

The 4-H Club plan has been adapted to suit varying needs and conditions in some 50 nations. In 1954, U.S. 4-H boys and girls visited other nations, and 151 boys and girls of 37 countries came here.

The size and form of the local clubs vary, but the average club has 21 boys and girls.

There are 39 clubs in Marion County with a total enrollment of nearly 700 members.

President Eisenhower is adding to the general observance of 4-H Club Week by receiving award - winning boys and girls at the White House. Himself an admirer and breeder of cattle, the President is particularly appreciative of this club activity.

The theme for the 1955 observance is "Improving Family and Community Living." Club members, "learning by doing," have as their motto, "To make the best better."

Membership in 4-H is open to boys and girls up to 21 years old. Throughout the years of 4-H work, some 17 million have participated, and the Department of Agriculture estimates that 30 per cent of "the potential enrollment" is currently being reached by the program.

For the wholesome work they are doing, for the high standards of clean living they maintain for their interest, their energy and their ingenuity, we salute the 4-H clubs all over the country.

Anniversary of Courage

Ten years ago Monday, a small detachment of the U.S. First Army's Ninth Armored Division electrified the world by crossing the Ludendorff bridge over the Rhine at Remagen, Germany.

The crossing was historic, fruitful of victory and almost incredibly lucky. Gen. Eisenhower has called it "one of those bright opportunities of war which, when quickly and firmly grasped, produce incalculable effect on future operations."

It was the first crossing of the Rhine by an invading army since 1805, and it played a vital part in accelerating the German collapse.

"The final defeat of the enemy, which we had long calculated would be accomplished in the spring and summer campaigning of 1945," Eisenhower has recalled, "was suddenly now, in our minds, just around the corner."

But also it was lucky — lucky and the result of what Eisenhower has called "the greatest determination and gallantry" of the Ninth Armored spearhead. The Germans had planned to blow up the bridge, as they had blown up all other Rhine bridges.

Indecision and doubt, however, overtook the Nazi detachment detailed to destroy it. Eisenhower suggests that possibly the Germans delayed destruction in order to facilitate withdrawal of German troops — considerable in number — still west of the Rhine.

The Remagen bridge, under fire from long-range artillery and desperate German air force attacks, was used by U.S. troops only five days. On March 17, the center span fell, carrying with it Army engineers still trying to save it. But in the meantime, the engineers had constructed floating bridges.

Not enough stress has been placed on the initiative, imagination and raw courage of the first officers and men who dared death in racing across the bridge. They could plainly see the defending enemy troops ready to fire off the demolitions.

The crossing at Remagen will always be an inspiration wherever free men fight for their ideals.

Next: Colored Tires

The expected development of colored tires for automobiles does not rank in importance with such automotive gadgets as the windshield wiper or the self-starter but just where colored tires will lead, so to speak, raises interesting questions.

Flashy colors on cars are obvious enough so that they don't require too much distraction to see. But tires may be different. A driver could find himself getting careless by stretching his neck to catch the exact tint of a passing tire.

A husband with a jealous wife could find himself in trouble by making some innocent remark such as, "Did you see the color of that woman's sidewalls?"

A leading tire manufacturer has announced that the tire colors will be made to match the colors of auto bodies, and other hues as well will be available, possibly this summer.

Probably eventually some drivers will plan on changing their tires to have different colors for each season. But what we are waiting for is a tire of variable shades like a chamelion, so that it will blend well with any type of mud or discoloration.

Right of Removal

By David Lawrence

Jurisdiction Over Federal Employes Questioned

Some press dispatches within the last few days, in reporting the news about a new brief filed in the Supreme Court by the attorney general, have given a misleading impression to the American people by implying that President Eisenhower has been or is now at odds with the Department of Justice in the handling of security cases.

What has been quoted to support such an alleged divergence of view was a speech made by the President on Nov. 23, 1953, in which he said something about "the right to meet your accuser face to face."

While this comment — which obviously referred to court proceedings and not to the discretionary powers exercised by the government in hiring and firing employes — was resurrected by some of the press associations, they neglected to point to the President's comments of a few days later explaining the real meaning of his speech.

At the press conference, which occurred on Dec. 2, 1953, Eisenhower, replying to a direct question about this same speech, said there was one point which he must make clear, namely that employment in the federal government is not a right of citizenship but a privilege.

He added that if there is real justifiable belief and conviction that a person is a security risk, you cannot keep him in a delicate position and in certain instances probably couldn't keep such persons at all.

The President emphasized that there is a difference between determining whether or not a man should work for the federal government and charging anyone with a heinous crime of any kind.

-:-

IT WAS CLEAR that Eisenhower was differentiating in the traditional way between a criminal court proceeding and a personnel inquiry in which the government decides whether to hire or fire an employe.

The applicant or the employe does not have to be "proved" a security risk. It is necessary only for the government to be convinced of his unreliability or unsuitability by reason of his background.

The issue as to the rights of the individual employe to convert a personnel inquiry into a court proceeding is coming up for decision soon in the Supreme Court of the United States.

Already extensive briefs have been filed by both sides in a test case involving a college professor who was not cleared for service as a consultant to the government on account of alleged connections with Communists and was declared ineligible on security grounds. The case originated under the Truman Loyalty Program.

The Department of Justice has just filed a brief with the Supreme Court which points out that to grant to an individual a hearing within the government is a privilege bestowed by the government itself, that it really is under no legal obligation to furnish any reasons if it wants to fire an employe, and that the executive branch must determine for itself the scope of its personnel restrictions.

-:-

THE SUPREME COURT ruled in the famous Myers Case involving a postmaster dismissed obviously for political reasons that the chief executive could remove any employe at will in the executive departments unless Congress by law had enumerated specific causes for removal.

President Franklin Roosevelt removed a member of the Federal Trade Commission because "your mind doesn't go along with mine," but the Supreme Court held that Congress in creating the commission had specified grounds for removal and political compatibility wasn't one of them.

So the absolute right of removal resides in the executive branch until and unless Congress qualifies it in some way by law.

An attempt is being made by some of the defenders of the college professor in question to argue that the case hinges on a constitutional requirement which says a person shall not be deprived of life, liberty and property without "due process," namely a trial.

Is he guaranteed by the Constitution, however, the "liberty" to undermine his own government from within? If so, it would mean that the government departments would have to submit to a court trial if they wanted to get rid of an incompetent employe or an indiscreet employe or if they just wanted to give the job to somebody else.

The issue basically turns on whether the FBI should be required to bring into the hearings as witnesses for cross-examination the persons from whom it got its information originally about a suspected employe.

-:-

THE PRESIDENT has approved slight amendments in existing regulations so that the FBI will furnish to the accused a complete statement of the charges and as comprehensively as possible the nature of the information. The new program does not provide that the identity of all informants be disclosed.

The FBI says the whole system of protecting national security would break down if the Communists were to be able to learn by one means or another who the informants are so that they could either intimidate or liquidate them. So again the Supreme Court is asked to decide an issue it has had up before in the so-called "clear and present danger" cases —whether or not to tell the Department of Justice and the Civil Service Commission, in effect, that they must wait until a conspiracy is actually fulfilled and the damage done before firing a suspected employe.

In other words, must the federal departments get an affidavit from Moscow and corroborative testimony from the Russian secret service itself before anybody in America can be fired as a security risk?

Aid for the Obsolete

By Raymond Moley

Harold Stassen's Foreign Operations Administration and its predecessors has appropriated at a rate of 450 million dollars a year to the British aircraft industry for the manufacture of jet fighters.

The first effect of this was to release British funds for the making of jet planes for civil use which will compete with American air lines seeking international traffic.

The second effect was to injure the American aircraft manufacturing industry which has been suffering serious unemployment.

These results however might be justified if our contribution in money were to provide planes which would materially strengthen British military potential. The evidence is overwhelming that the money, or a great part of it, has been wasted. Apparently the planes produced with American money have been in some cases useless and in others subject to very rapid obsolescence.

The inadequacy of some of the planes built with our money has been fully pointed out in the British press, in American technical air journals and in parliamentary debate last December.

Most important this deplorable example of wasted money is in a report to a Hoover Commission task force by a competent man who has been investigating our foreign aid.

In reply to this criticism Stassen lashed out at the latter in a press conference on Aug. 13, 1954. In that conference he said that the report was "one of the most inaccurate" that he had ever seen.

He said also that the Hawker Hunter had "proven to be one of the very excellent fighter-interceptors which our Air Force evaluated as top-flight when it was in the development stage and it has proven out in its production."

He said further that "when we buy airplanes, we buy only the airplanes that the U.S. Air Force has evaluated, and we have never deviated from that principle."

Two of the planes in question are the Hunter and the Swift. The London Evening Standard says of these planes: "They are obsolescent compared with the supersonic fighters going to the American air force." W. A. Waterton, a British test pilot wrote in the London Daily Express in December: "The new fighters—Hunters, Swifts and Javelins—are worrying the R.A.F. . . The Hunter and the Swift have been produced in hundreds, yet not 20 are in squadron service.

"Britain's new fighters are having more than their share (of troubles). Particularly as the latest RAF fighters are already outclassed by American types in service."

The Senate Appropriations Committee states: "Three of the fighters (then being financed by the U.S.) are unproved planes still in the experimental stage and two have never been fully tested or approved by the United States Air Force. None of the three fighters are capable of supersonic speed in level flight."

The report further states that "if the British concentrate upon the construction of the Javelin, the Hawker Hunter and the Swift, they will not have a modern fighter force at the end of four years."

Stassen seems to be incensed at the Congress and presumably at the Hoover task force for having raised the question.

Here is a plain question of which is right, Stassen or those responsible agencies.

It is to be hoped that the Hoover Commission will give the taxpayers the final answer on this use of American money and the competence of this man who is spending so much of it abroad.

Democrats May Regret Stock Probe

By Herbert Bratter

The Democratic - controlled Congress that began to investigate Wall Street's spectacular bull market last week may find before it is through that it has a bull by the tail.

The investigation, being conducted by Sen. Fulbright, is trying to find out why the market has soared and whether the rise is a sound one. Sen. Fulbright and his group hope it is sound. Other Democrats hope so, too. For if the market is on the verge of a collapse, the Republicans are likely to pin the debacle onto the Democratic hearings.

In that event, the Democrats may protest as loudly as possible that the market reaction was long overdue; the price rise overdone. Yet it will be very hard to erase the impression that the "friendly investigation" shook the confidence of security holders in the now year-and-a-half-old bull market. From this standpoint it might have been better for Congress to have waited until after it ended.

Suppose, however, that the Fulbright committee does conclude that the market rise has been "sound" and formally reports to that effect. How will the market interpret that? May not speculators take the report as a green light to go ahead again full blast?

Should the hearings result in such behavior by stock buyers, the present bull market will take a new lease on life and lift already-high prices still higher.

-:-

SINCE THERE never can be a perpetual bull market, since the stock market in the end always "overdoses," and since the greater the excesses the more painful the readjusmtent — with repercussions on business sentiment generally— those responsible for turning on the green light are likely to be blamed.

So, if the Fulbright committee for political reasons needs to exercise caution in condemning the market, it must be no less cautious in praising it. As committee counsel Robert Wallace has well put it, we are "walking on eggs."

Some Democrats — namely, Sen. Douglas and Rep. Patman — have felt that soaring stock prices of the past 18 months are in part the fault of the Federal Reserve Board.

It is the board to which Congress gave the responsibility of regulating Stock Market margins; which means, in plain English, regulating the amount of money speculators are allowed to borrow to finance their stock market activities.

Patman cites the fact that the board cut margin requirements by one-third in 1953 "to expand margin trading" and suspects that it was last fall's elections which influenced the board against raising margin requirements when stock prices were inflating."

But if the Fulbright committee chastises the Federal Reserve Board it will be spanking not the Republicans, but an independent agency whose wartime common-law marriage to the Treasury was severed during the Truman administration.

-:-

OF ITS HALF DOZEN members during the bull market, five including the chairman, were Democratic appointees. So, from the standpoint of political dividends only, a committee scolding of the board may not be too rewarding to the Democrats.

Many Wall Streeters attribute the current bull market in important part to the easy - money policies to which the Treasury gave its blessing in mid-1953. The Republican administration during its first months in office pursued "a sound dollar" with zeal. That is, the Treasury did nothing to keep money easy.

The Democrats, of course, hollered bloody murder in Senate and House. A recession was starting. So the Treasury modified its financial policies and refrained from borrowing money in too vigorous competition with others.

Suppose, then, that the Fulbright committee should blame the Treasury's easier money policies of 1953 and 1954 for the rising stock market prices. Since the Treasury was only doing what leading Democrats had been demanding and would have made money even easier in the market places had it fully followed the Democrats' desires, where's the political percentage in such committee conclusion?

-:-

IN DIGGING INTO the mountain of statistics and opinions the staff of the Fulbright committee has collected, the most likely political pay dirt would be the discovery of any loopholes in the regulation of the market laid down by the Congress in the Securities laws of 1933 and later. Those laws grew out of the abuses in Wall Street uncovered by the Senate Banking and Currency Committee under the guidance of its then counsel, Ferdinand Pecora.

Judge Pecora called on Fulbright recently, but it is doubtful that he had anything spectacular to suggest. The chances are that the Fulbright committee will find that the reforms which Pecora helped bring about are, by and large, pretty effective.

It would be unsafe to conclude that the Fulbright committee will find no need for new securities legislation. Sen. Lehman, who is eminently qualified in this field, told the committee he has no doubt whatsoever that there are still some abuses in the Stock Exchange.

-

MOREOVER, the over-the-counter market is entirely unregulated and probably could be improved in the public interest. Still another problem is that posed by radio broadcasters who dispense nationwide advice to speculators.

It would be erroneous to attribute the steep market rise of the past year and a half to abuses which legislation can eliminate. Last week, at any rate, the bull market kept right on climbing regardless of the Senate hearing.

Whatever happens during coming weeks, Fulbright and his colleagues evidently realize that there are political as well as financial dangers in the stock market. A serious dip in prices may make him wish he had never laid hands on the Wall Street bull.

He had some cares, of course, did he,
Formosa, though, was just a tea.

The baseball training camps are busting out all over. After a winter in which a self-confessed liar, a boastful bearer of false witness and a smelly array of punks, cheaters, hoods, and general baddie have paraded across the American stage, it all comes like an escape from a sewer into the sunny parks of spring... What a relief to get away from such characters and switch to the ball parks! The more you read about behavior on so many other levels of life, the more baseball lifts, cleanses and purifies. In this spring of 1955 it's a deodorant.

Baseball is the national game and never has it seemed so important that the kids find their heroes there at a time when a youthful Judas noisily relates how he betrayed for 30 pieces of silver, and a chance to write a book; and other sleazy characters share in the top news of the day.

There is this to be said of baseball: you never find an Iscariot in the lineup, no voice announces, "Ananias now batting!" and no pitcher throws the game and bellows, "Why the surprise? I'm not Strikeout McGinty; I'm Baron Munchausen."

Nobody sees a baseball player proud of betrayals, glorying in double dealings, authoring a book "My Years As a Double-Crosser," refusing to sign a loalty oath or taking a hook slide behind the Fifth Amendment to the reasonable question: "Are you working for the home team or for the enemy?" (Batter up! And to the bench with the crumbs, heels, hoodlums, grafters, fast-dollar boys and stinkoes!)

We hear that Bill Zeckendorf, New York's super realtor, astonished the family by coming home from a day around town with a confession he hadn't found a half dozen skyscrapers he liked enough to buy. Mr. Zeckendorf and Roger Stevens are the powers behind the big Grand Central area real estate moves and since the Yale Club is one of the buildings they have in hand we can't help wondering if they are Princeton or Harvard men.

Jewelry of Nuts and Bolts

Glamorous hardware. Television star Jayne Meadows tries on new machine-age jewelry at her New York apartment.

Necklace, bracelets and earrings are made of hardware-store items such as nuts, bolts and cotter pins in lightweight aluminum, dyed in vivid colors.

The ideas was dreamed up by two New York girls, Pat Smith, an industrial designer, and Willa Percival, a magazine photographer. They collected light-weight aluminum hardware items, dyed them in brilliant colors, put them together in bracelets, necklaces and earrings and then started showing their samples to store buyers.

Today the girls are working full-time at their new business, have a factory in production and are shipping the novel jewelry to stores throughout the country.

Evangelist Will Lead Service Here Thursday

Highlighting a Methodist visitation evangelism mission for Marion County in progress this week will be appearance here of Rev. C. Lloyd Daugherty of Nashville, Tenn. He is a member of the denomination's general board of evangelism staff with responsibility for the department of local church evangelism. His work here is a part of a "Four Nights for God" campaign.

Marion countians will have an opportunity to hear him Thursday night at a mass meeting at Wesley Methodist Church. This is part of a Lima District emphasis on visitation evangelism. Teams of callers from churches throughout the district are engaged this week in visiting homes of non-church members with an invitation to active commitment to Christ and the church. Several hundred workers are taking part in the program here.

Rev. Daugherty opened the district drive at a meeting in Ada Feb. 13. He spoke Sunday afternoon to a meeting of the visitation teams of the district at Kenton and Sunday night at the annual Lenten service of the district Methodist Youth Fellowship.

Opening the Thursday night meeting will be a song service led by Merle Lashey of the host church. The choir of Wesley Church will sing. Introduction of the speaker will be by Rev. Harold F. Kellogg, Lima District superintendent. Host pastor, Rev. W. Lincoln Stafford, is a member of the district evangelism committee. Similar visitation evangelism programs are being conducted on a denomination - wide basis with district participation set up throughout the country for early 1955.

Democrats Open Probe

Administration Security Program Set for Airing

By JAMES MARLOW -
Associated Press News Analyst

WASHINGTON (AP)—Now, for the first time since President Eisenhower entered the White House, the Democrats are able to examine his employe security program They're taking a double look, starting today.

This program has generated a lot of Democratic heat, no doubt much of it political, ever since 1953 when the administration began issuing numbers on the people fired from the government as security risks

Because the administration didn't say how many of them actually were subversives, the Democrats called the whole performance a "numbers game" The administration claims 8,008 "security risks" have quit or been discharged

There has been wide concern, inside and outside Congress, that the program, for lack of sufficient safeguards, may be working injustices Eisenhower stands pat on his program Over the weekend Atty Gen Brownell came up with a few alterations but they were minor

— —

UNTIL THEY GOT control of Congress this year the Democrats couldn't set up an investigation Now they're ready

Sen Humphrey (D-Minn) and Sen Stennis (D-Miss) have proposed creation of a special 12-man commission to look into the whole broad problem of government security-ranging from the Eisenhower employe program to laws on spying and sabotage—and report back in March 1956 with recommendations

Today, Humphrey, head of a Senate subcommittee opens hearings intended to acquaint Congress, if it sets up the commission with information on the broad problem of security So his hearings won't be on Eisenhower's program alone

But soon the Senate's Post Office and Civil Service Committee, headed by Sen Olin D Johnston (D-SC), will start hearings concentrated on the Eisenhower program alone That will probably be a stormy one, full of political implications for 1956

— —

EISENHOWER'S administration didn't like President Truman's program for getting rid of government employes who might endanger the country if allowed to keep their jobs

Eisenhower on April 17, 1953 substituted his own program It differed from Truman's in two main ways

1 Under Truman the test was a man's loyalty Under Eisenhower a man can be fired if he's a security risk What's that? It might be a Communist or a drunk or a homosexual or a person with a Communist relative

2 Under Eisenhower a man about to be fired can appeal to the head of his agency or department If turned down there he's out Under Truman such a man if turned down by his agency head, could appeal to a special loyalty review board whose word was final Eisenhower abolished this appeals board

County Alumni Of OSU Tops In Fund Drive

Marion County alumni of Ohio State University last year attained the best percentage of alumni participation in contributions made to the OSU Development Fund, members of the Marion County Ohio State University Alumni Association were told, at their annual dinner Saturday night at the Marion Country Club

The announcement was made by Kenyon Campbell, field director of the University Development Fund who shared the speakers' program with Dr Ronald B Thompson, university examiner and registrar Campbell congratulated the association and Jack Weis chairman of the fund campaign, and Robert T Mason, area agent on the achievement

He called attention to the fact that this is the third consecutive year the local group has headed the state in the university's fund project Heading the state qualifies the county group to name a student for a scholarship at Ohio State University

Business included election of officers for the coming year. Miss Madge Cooper was elected president, Karl Bechtle, vice president, William Dunning, executive secretary Robert R Edwards, secretary, Daniel Roecker, treasurer. Named on the board of governors were Owen Poling, Warren Rowley, Edwin L Mitchell, Miss Helen May, Harry W Carey, Steve W Kubner, William C Williams, Mrs. Randall Huffman, Paul E Fick Charles Might, Robert W Bergmann and Mrs Merle Hamilton

Mason again will serve as area director and Weis as chairman of the development fund

COUNCIL OKAYS PAY HIKE

BARBERTON Ohio (AP) — New raises adding about $30,000 a year to the city payroll were announced last night. The raises were based on a job evaluation survey and went to all but about five of 200 employes including the mayor whose monthly salary of $400 was upped by $200 City laborers got raises of from five to seven per cent

Pioneer in Water Conservation Will Get Overdue Pay

COLUMBUS Ohio (AP)—More than 20 years ago David C Warner, the man who was attempting to devise a water conservation program for Ohio had the rug pulled out from under him

After two years' work the whole appropriation for Warner's salary and his work was vetoed by the governor in a bit of depression economy

For six years, Warner worked doggedly ahead—without salary.

In 1939, Warner went back on the state pay roll He established himself as an authority in his field and became known as the 'father of Ohio water conservation"

Today Warner is past 80, ill and in financial distress

But his money troubles may be nearing an end

Last night the Ohio Senate passed, 29-1, and sent to the House an emergency bill to appropriate $5,000 'for the partial compensation for past services to the State of Ohio by David C Warner"

Do you ever run out of hot water at your house?

If you are like many families, your water heater will "leave you cold" when you do the laundry... or while washing the dishes... or after several baths have been taken.

You Need an Automatic Laundry-Rated Gas Water Heater.

Families are using more and more hot water every year. They have more automatic home laundries, automatic dishwashers, bigger families, and more shower baths than ever before. Even though your present water heater may be gas-fired and automatic, it can still be inadequate for your present needs. Be sure your next water heater is Laundry-Rated.

Laundry-Rating is a scientific method for determining which water heaters will meet your hot water requirements.

Quantity, temperature, and availability of hot water are the three prime considerations in selecting a water heater for your family Matching these three factors to your individual requirements assure you the best hot water service available.

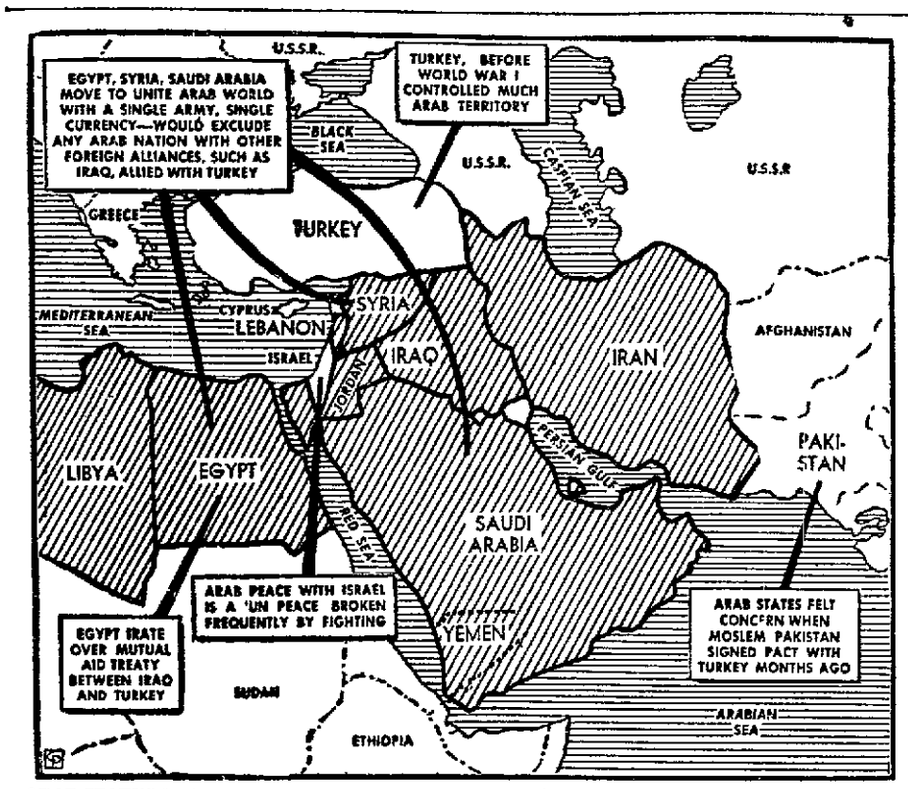
GOP Leaders Increase Lausche Budget Deficit to $25 Million



ARAB STATES MOVE TO UNITE APART FROM WEST Newest move of the ever restive Arab states (lined) is plan of Egypt and Syria, quickly joined by Saudi Arabia to unite Arab states apart from the west in a pact which would exclude other foreign alliances Arab nations are urged to send officials to an Arab conference A defense plan would set up a joint army command based at Damascus capital of Syria An Arab economic council would have power to issue currency, encourage industrial, aviation, navigation and insurance enterprises

Say Estimate On Revenues May Be High

Joint House-Senate Statement Reflects State's Financial Jam

COLUMBUS Ohio (AP) — Republican legislative leaders who last week accused Democratic Gov Frank J Lausche of submitting a budget nearly 10 million dollars out of balance have jumped the ante to 25 millions

And in a change of tune from recent sessions of the General Assembly the Republicans now are suggesting Lausche's estimate of state income may be too high For a half-dozen years GOP spokesmen have complained the governor's estimates were too low.

Issue Joint Statement

The two observations on the state's financial plight were made last night in a joint statement issued by House Speaker Roger Cloud (R Logan) and J Frank McClure (R-Ashland) chairman of the Ohio House Finance Committee The statement was authorized by the Republican majority in the house

The statement pointed up a fact already well known around the State Capitol The Legislature is in an almost unprecedented financial jam

Lausche submitted his record 931-million-dollar budget a week ago

'Red Ink' Budget Hit

Immediately Senate and House leaders branded it a budget written in red ink That was because Lausche recommended the use of nearly 10 million dollars out of the state surplus of the last two years to help pay the state's living expenses for the next two years

After further study said Cloud and McClure they find another 15 million dollars will be needed to balance the budget because of

1 Failure to set aside more than 10 millions for the first month's payment on the school foundation program for the next two years as was done for the present two-year fiscal period

2 Failure to allow at least five million dollars to care for increased school enrollments in the second year of the biennium

In short, said the Republican leaders Lausche's budget calls on the state to spend at least 20 million dollars more than it takes in during the next two years And they declared

"To pursue a fiscal policy extending into the next several years as outlined in the 1955-57 state budget would be to head the state toward financial trouble"

Cloud told newsmen he and McClure will put the problem to the governor in a personal interview in the next few days

The statement came as the Legislature began its tenth work week in a brief night session which saw six bills approved Included was the State's completion of legislative action on a bill appropriating $133-569 to pay the state's share for the first six months of this year of a salary increase granted probate judges two years ago

The Senate Highway Committee took a long step toward liberalizing Ohio's highway speed limits.

In recommending passage of a bill to increase the speed limits on state highways in non congested city districts from 35 to 50 m p h the committee added a provision increasing the limit outside cities from 50 to 60 m p h The truck and school bus speed limit would remain at 50

House's Assent Likely on Fair Practices Code

WASHINGTON (AP)—A 'code of fair practices for House committees came before the Rules Committee today for anticipated approval It is backed by Republican and Democratic leaders

The Senate is considering its own code

A House vote on the new regulations has been scheduled for late this week on the assumption that the Rules Committee would clear the code after a brief closed session

The rules designed to meet criticism of past practices of some committees would

1 Outlaw one man" investigations by requiring that at least two committee members be present when testimony is taken or evidence received

2 Require the chairman of an investigating committee to announce at the start of a hearing the subject of the investigation This is designed to counter objections that some congressional investigations start off as 'fishing expeditions' with no definite goal in sight

3 Permit witnesses to bring lawyers to committee hearings to advise them on constitutional rights

4 Allow a committee chairman to censure or exclude from hearings, any counsel violating decorum or professional ethics

5 Require committees to receive in closed session evidence or testimony tending to "defame degrade or incriminate any person" with the person named having the right to appear as a witness and to request that additional witnesses be subpenaed

6 Prohibit the release or use in public sessions without committee consent of evidence or testimony taken in closed session

Gore Sounds Out States on Highway Plan

Senator Wires All 48 Governors To See If Funds Are Available

WASHINGTON (AP) — Sen Gore (D Tenn) polled the nation's governors today in an effort to find out whether the states are ready willing and able to put up more money for highway improvement

Gore is chairman of a Senate Public Works subcommittee now considering President Eisenhower's plan for a huge new 10 year federal state highway modernization program and Gore's rival proposal for an increase in the present federal aid highway program Both proposals would entail bigger state outlays

In separate telegrams to the 48 state chief executives Gore said the subcommittee had instructed him to ask for the governors views on the ability and present inclination of their respective states to raise the additional funds to match and implement proposals now before it

Gore explained that he proposes to nearly double the present 875 million dollar annual federal highway allocation The states would continue to match most of the federal funds on a 50 50 basis

He said the Eisenhower administration's highway program while recommending greatly increased" federal spending on interstate roads, provides 'no increase in federal funds for primary, farm-to-market or urban projects"

In the same wires Gore cited figures to show that his bill would boost federal outlays for roads not part of the interstate system by 400 millions a year

Gore said the administration program calls for the states and local governments to put out within the next decade 29 billions more than they are spending now to bring all roads and streets outside of the interstate system "up to required standards"

Gore said the President's program called for spending of 54 billion for highways above what is now planned in the next 10 years and the 29 billion is the share of this left for the states and cities to raise although the President did not say how it would be done The federal government would put up 25 billion of the 54 raised through bonds

Under present plans and programs 47 billion dollars would be spent on highway work over the next 10 years the federal government spending 10 billions and the states 37

The administration has estimated its new plan would cost 101 billions over the 10-year span with the federal share 31 billions plus Of the federal slice, 25 billions would be earmarked for a 40 000 mile network of interstate roads for which the states would put up 2 billions

'BIG SHOT' The now familiar mushroom-shaped cloud rises toward an altitude of 40 000 feet as the Atomic Energy Commission fires the largest atomic device in its 1955 series of tests at the Nevada proving grounds 70 miles north of Las Vegas As the blast was detonated, 550 troops crouched in trenches 5 500 yards away but moved out of the area within 10 minutes to escape radioactive fallout.

Atomic Blast's Cloud Drifting Across Nation

AEC Monitors Keep Close Watch as Last Remnants Float East

LAS VEGAS Nev (AP) — Wind-blown remnants of the year's biggest atomic explosion to date drifted lazily across the nation today

One portion of cloud broke away from the soaring mushroom of the yesterday's test A-blast and is moving east under the constant study of Atomic Energy Commission monitors

Another part moved harmlessly across central California and out over the Pacific.

AEC officials emphasized that neither cloud was considered dangerous

Plans went ahead for another test explosion at the vast Yucca Flat proving ground 75 miles northwest of Las Vegas The next blast will be smaller.

Yesterday's explosion—triggered on a 500 foot tower—flashed in the clear desert air at 5 20 a m It was seen in all the Western states and in Mexico

The AEC said no one was injured, although some 575 servicemen evacuated trenches 5 500 yards from ground zero 10 minutes after the explosion because of a wind shift

Upper layers of the blast's mushroom headed east in two air masses One was moving across southern Utah and Colorado a corner of Kansas and the Oklahoma Panhandle It was expected to reach North Carolina within 72 hours after the blast

Another mass containing atomic blast particles was expected to reach Arkansas and Missouri within 24 hours Fixed monitoring stations and mobile monitors are tracking the masses

Won Ike's Praise in Europe

Gen. Taylor New Head Of U.S. Far East Forces

By ROBERT EUNSON

TOKYO (AP)—Gen Maxwell D Taylor, the 8th Army boss in Korea whose promotion to commander of U S forces in the Far East was announced today, never picked up any fancy nicknames, but if he had it probably would have been "Brains and Guts"

Taylor speaks more than half a dozen languages, is a student of philosophy and likes to spend his leisure hours reading Greek tragedy.

Praised by Ike

As for his courage, President Eisenhower in 'Crusade in Europe" wrote of Taylor 'The risks he ran were greater than I asked any other agent or emissary to undertake during the war"

The President was referring to the time he sent Taylor behind the enemy lines in Italy to sound out Marshal Badoglio on a quick surrender.

Later when Taylor's 101st Airborne Division was cut off and surrounded at Bastogne, Taylor was in Washington.

He rushed back to Europe and parachuted smack into the center of his division, knowing full well that either death or capture would be his fate if the Germans won the battle

Boosts Troops' Morale

Taylor's daring return to the fighting added just that much more spirit to his paratroopers.

At Bastogne, Taylor lived a soldiers' dream, a swashbuckling paratrooper hurrying 3,000 miles to get into a fight and then winning it the hard way

But a little more than a year before that, Sept 7 1943, it took imagination along with daring to perform the task Eisenhower set for him

The picture was this:

GEN. MAXWELL TAYLOR
8th Army Commander Promoted

Allied armies were preparing for the invasion of Italy The Italian government, fed up with the way the German Nazis were treating them, wanted to surrender Representatives of the Badoglio government, successor to Mussolini, had made promises of guides, interpreters, food, ammunition and vehicles if the Allies tried an airborne landing near Rome

It had been decided to drop Maj Gen Matthew B Ridgway's 82nd Airborne Division on the airfields near Rome, seize the Italian capital and chase out the Germans

The only thing lacking was definite assurance from Badoglio Consequently Eisenhower picked Taylor, then executive officer of the 82nd Airborne, to go behind the Italian lines and talk to Badoglio

Twenty-four hours ahead of the planned invasion Taylor then 41, in company with the late Col Tudor Gardiner former governor of Maine, went to the island of Ustica aboard a British PT boat There they were taken aboard an Italian corvette which landed them at Gaeta

In broad daylight Taylor and Gardiner were whisked all the way to the Italian capital, where they met Badoglio.

Badoglio said he feared an airborne landing in that area would mean the massacre of every paratrooper

Taylor radioed a coded message back to Eisenhower, Call off the landings"

Taylor and Gardiner by their action probably saved thousands of American lives

600 Hawaiian Refugees Await Eruption's End

PAHOA Hawaii (AP)—Six hundred refugees badgered officials today for permission to return to their homes in the devastated Puna Peninsula as week-long volcanic eruptions simmered down to a mild bubbling action.

Earth tremors were moderate Lava fountains which had shot to a breathtaking 1 000 feet were just bubbling with an occasional half-hearted 50-foot spout

Volcanologist Gordon A MacDonald urged the refugees to wait He warned that new eruptions "are still possible I don't know when it will be safe"

However families from Kalapana and Opihikao were told they could go home today on condition radio-equipped trucks and drivers stood by in both tiny south coast villages

Villagers crowded civil defense and Red Cross headquarters and demanded permission to return to Kapoho

Alvin Kalawe a spokesman for the refugees, said

"We have no intention of abandoning our homes We have lived in Kapoho all our lives It is in our hearts We intend to return'

Hawaii County Supervisor Richard Lymann who owns most of Puna's canelands estimated total damage at $3 200 000

Stock Market

(Continued From Page 1)

danger signs now as increased credit buying, an influx of newcomers into the market and a growing gap between the sale price and the book value of shares

Galbraith offered these specific recommendations

1 "Should there be a resumption of the upward movement of the past year in the weeks or months ahead the federal reserve should be pressed to put trading on a cash basis by raising margin requirements to 100 per cent The margin—or cash down payment—requirement now stands at 60 per cent

2 The government should make clear its determination to hold securities speculation in check with 'specific and reiterated warning about the danger of runaway speculation"

3 "If speculative tendencies persist, more drastic measures involving the tax power should be contemplated'

4 The New York Stock Exchange should accompany its 'public education' campaign designed to increase the number of investors with "stern warnings on the dangers that await the amateur investor reminders of past misfortunes, and of the tendency of markets that have gone up spectacularly to come down the same way"

ana had been affected

The river crested early today at Gallipolis about seven feet above the flood stage of 50 feet A 61 5 foot crest at Cincinnati would be the highest since a 64 8 foot stage was reached April 18 1948

The river also was cresting this forenoon at Dam 28 below Huntington, W Va at 59 4 feet. Flood stage is 50 feet there

Sections of Main Street in Pomeroy, the county seat of Meigs County, were under 5 feet of water Thirty-six homes were evacuated and 46 businesses were knocked out Schools were closed

At Catlettsburg Ky, between Huntington and Ashland 1 800 persons or one third of the total population, had to leave their homes, police reported Another 80 families were evacuated at Henderson, W Va, yesterday and 35 at Kingston, W Va

Col Person said that while the damage was substantial in scattered areas he foresaw no catastrophe.

'The U S government have already given positive proofs of their desire to relax tension and reduce the risks of war' Eden said I am convinced that they wish to see conditions created which would put an end to active military hostilities in the area and reduce the dangers of a wider conflict.

"They have effectively restrained the Chinese Nationalists in recent weeks from initiating attacks against the Chinese mainland They have persuaded the Nationalists to evacuate the Tachen and Nanchi Islands."

Budget Sound, Lausche Says, Hitting Critics

COLUMBUS Ohio (AP) — Gov Frank J Lausche came to the defense of his budget today He issued a statement saying that if the Legislature will follow his request and pass no laws requiring expenditure of new monies the financial position of the state 'will be sound

'Based upon the conflicting position taken respectively by the leaders of the Senate and of the House he said 'I am convinced that the budget is neither overly conservative nor overly liberal

'On the one hand leaders of the Senate have attacked the budget claiming the estimated revenues are too low On the other leaders of the House claim the estimate of the revenues is too high

'If the Legislature will follow my request and pass no laws requiring the expenditure of new monies the financial position of the state will be sound

"The recommended budget and suggestions contained in my messages that there be no new expenditures and no new taxes, if followed will be a real service to our state and its people

"I see signs, however, of a purpose by certain legislators to substantially increase the expenditures which I recommended If that is done, it will be a mistake."

Delaware Man Found Guilty Of Killing Cat

DELAWARE, Ohio (AP)—A Delaware County man may have been the first person convicted of killing a cat in violation of a state law.

That's the opinion of Miss Fern Zetty of Columbus, president of the Cat Welfare Assn., Inc.

State law prohibits killing of domestic animals without the owner's consent. It was passed in 1951.

Joseph Manahan, 76, of Concord Twp., was fined $25 and costs of $6.49 when he was convicted of killing a cat owned by Mrs. Alice Bowles, a neighbor who has since moved to Union County. Manahan pleaded innocent to the charge when taken before Municipal Judge Henry Wolf last Saturday.

Manahan said he had fired his gun at his dog which had carried away a neighbor's newspaper. Mrs. Bowles and two young daughters, however, testified they saw Manahan kill their cat.

The 1951 law provides penalties for those who "maliciously or willfully and without the consent of the owner kill or injure" domestic animals. If the value of the animal is $35 or more, the convicted person can be fined $50 to $500 or imprisoned for not less than three months or more than one year, or both.

Only persons excepted from the law are state-licensed veterinarians acting in an official capacity.

Elmer Williams Is Elected Chairman Of Health Advisers

Elmer Williams was elected chairman of the Marion County District Advisory Board at the group's annual meeting Monday.

The board, which works with the County Health Department, is composed of the 15 chairmen of township trustees and the mayors of the city and villages in the county.

Holley F. Baker was named secretary and J. W. Campbell was re-elected to another five-year term on the county health board.

Activities of the health department during the year were discussed, a budget report was presented and the group recommended that a financial statement be included in the annual reports sent each year to the township trustees and city and village mayors.

The group also discussed licensing of food handlers in the county and duplication of effort on the part of the city and county health departments. It was decided this duplication is experienced in health department controls on milk handling, rabies, and tuberculosis.

Soviet Fallacy

By George Sokolsky

In 1928, Soviet Russia produced 4 million metric tons of steel; in 1953, it produced 38 million metric tons. Prior to 1917, Russia was essentially an agricultural country with a primitive industry consisting principally of small manufactures and handicrafts. the advance, therefore, to a modern industry, based on steel, has been enormous in a short period.

SOKOLSKY

However, to achieve this result, agriculture was sacrificed. It was not so intended, the Russian assumption being that the modernized collective farms would produce increasingly, particularly as mechanized and scientific methods were being applied. It has not worked out that way.

-:-

THE FARMER HAS measured his work against the availability of consumers goods.

Malenkov and Mikoyan believed that they could increase agricultural production by increasing the availability of consumers goods.

Unfortunately for their program, Soviet Russia's commitments for armaments could not be postponed and therefore Khrushchev had to make the changes in policy sharp and dramatic. What means he will use to stimulate agricultural production does not yet appear, but the neglect of consumer and light industry cannot but affect the peasant unfavorably.

Raising his own food, his compensatiln must be measured in terms of clothing, improved housing and increased luxuries. Otherwise there is no reason for him to put himself out to increase his output.

Stalin never solved the agricultural problem: His various "Five-Year Plans" were for the benefit of heavy industry at the expense of the peasant and the worker, who nevertheless did not rebel for a complex of reasons.

Expenditures for atomic experimentation undoubtedly have aggravated this situation. "Focus," a publication of the American Geographical Society, states:

"According to a recent American study, real wages in the Soviet Union declined precipitately during the early Five-Year Plans and only now are once again approaching the level of 1928. The amount of housing in cities is reported to have decreased from 64 square feet of floor space per person in 1928 to 46 square feet in 1953. The average urban family of five has a one - room apartment 12 by 19 feet. , "

-:-

THERE IS NO physical reason why Soviet Russia should not be an outstanding industrial and agricultural country

In czarist times ,serfdom, absentee landlordism and an autocratic system of government held the people down.

Russia missed the Industrial Revolution of the 18th and 19th centuries altogether. Soviet Russia established a rigid socialist economy which utilized wealth and resources according to a fixed program rather than by competition. While remarkable progress was made in certain areas of production, as in steel, in others, as in agriculture, the system failed.

The incentives for production which manifest themselves in private enterprise do not achieve the same results under socialism.

For instance, scientists, writers, actors, dancers and party leaders, under the Soviet system, enjoy all the benefits of our society and sometimes more, but there are no small manufacturers who produce such surprising results as the establishment of a great industry, useful in war as well as peace, out of an initial gadget, as in our country.

-:-

AN ASTOUNDING condition in Russia is the reduction of oil consumption; less oil being used today as fuel than 50 years ago. Whereas geologists believe that from the Caspian Sea to the Urals lie large deposits of petroleum, they have not been developed so far as is known.

Coal, which is readily available in the Donets, Kuznetsk, Moscow and Ural basins, both bituminous and lignite, is replacing petroleum as fuel, whereas in the United States, petroleum is replacing coal.

In 1901, Russia was producing half the world's supply of petroleum; in 1953, its share was about eight per cent of the world's supply.

Modern agriculture is a phase of a petroleum technique. Modern farming is done by machines that move on oil. Oil drilling consumes quantities of steel which must be available and the use of which cannot be postponed to make armaments.

-:-

A MODERN country must be prepared to provide guns, bombs, butter and petroleum at the same time. The socialist theory that some items are postponable does not work out in the over-all results.

Khrushchev apparently faces this problem, but what is his solution for it? He is following the Stalinist line of sacrificing everything for heavy industry and armaments.

Stalin, however, had the advantage of an 11 billion dollar gift from the United States and enormous technical assistance. This will not be available for Khrushchev.

Upper Youth Wins Honor in Speaking

UPPER SANDUSKY—Paul Kotterman, a sophomore member of the Upper Sandusky FFA chapter and son of Ralph Kotterman, won the District Six FFA extemporaneous public speaking contest held at the Cory-Rawson School last week. There were five contestants from three counties, Hancock, Seneca and Wyandot.

Paul spoke on the topic, "Labor Saving Methods in Dairy Production," and won first place. He will represent the district in the state contest to be held March 25 during Farm and Home Week at Ohio State University.

James Baublitz of Nevada High School, was the other representative from Wyandot County in the district contest and received a silver rating. He spoke on the topic, "Conservation Practices in Wyandot County."

Mt. Gilead Man Named County Hospital Trustee

MOUNT GILEAD — Harley D. Miracle of Mount Gilead has been appointed to the board of trustees of the Morrow County Hospital, it was announced last week following a meeting of the Morrow County Commissioners.

Miracle takes the place of William Woodward of Mount Gilead, whose term expired on Feb. 28. Miracle's term began on March 1 and will continue through Feb. 28, 1961. The appointment was made following a joint meeting of the commissioners, Probate Judge John McMillan and Common Pleas Judge Leland Rutherford.

Commissioners in other business accepted the bid for installation of a Renzor overhead circulating heater in the upper floor of the jail cell block. The low bid of $293 of Lawrence Burnell and Lewis Levering of Cardington was accepted.

Quest for Taxes

By Victor Riesel

Each income tax season, I recall sitting with whimsical, monocled Charles Coburn in Chasen's out Beverly Hills way and listening to the veteran Hollywood star assail the 16th Amendment — which created the income tax law. That, said Charles Coburn, was the root of all evil. He even forgot to cuss out the most modern use of the Fifth Amendment.

VICTOR RIESEL

But we survive and the government continues to seek new sources of income Recently some Treasury Department officials have begun to eye the 22 billion dollar welfare and pension funds now piling up at some 3 billion dollars annually. Most of these are labor funds but some cover business executives. All are tax - free, however, once they are approved by the Treasury Department.

At a nominal three per cent, these funds earn at least 660 million-tax-free-dollars each year—or close to seven billion dollars minimum in a decade, which some of the federals see as a terrific source of government income if it could be taxes . . .

UNDERNEATH THE old gray mane of John Lewis, now bouncing alone along Florida roads, a great deal of thought is going into an attempt to devise strategy which would prevent the AFL-CIO merger.

Lewis did just that some years back, but it may be too late now to repeat history. And John L. has told friends that he will never go into the combined federation, which doesn't worry either George Meany or Walter Reuther.

Lewis' spokesmen at the United Mine Workers' headquarters, when asked to comment on labor unity, reply:

"What's that? We haven't heard about it."

There still are important unions which discriminate against their Negro members. However, under the new constitution now being drafted for the combined AFL-CIO, the color line will be wiped out.

Art Goldberg, CIO counsel, who did the actual blueprinting of the AFL - CIO merger, is writing a clause into the proposed constitution which will prohibit denying Negro members the same rights and jobs as white members. The chief of the new labor combination will have the power to enforce this clause — and he will have a fight on his hands.

MANY A BIG CITY hotel will lose labor convention business in coming years as a result of a new drive to unionize the Miami Beach Gold Coast hotels. The AFL Hotel and Restaurant Workers Union president, Ed Miller, has told Miami Beach operators that labor spends 80 million dollars annually on its conventions and he will try to get them the business if they will sign up with the union. At present only one hostelry is on the dotted line . .

Senator Paul Douglas writes me. "I certainly do plan to continue the investigation into welfare funds. At the present time, we are selecting our staff and preparing an agenda for hearings . . ." Douglas is head of the special Senate Labor Committee sub - committee with jurisdiction over this probe . . .

OVER IN ITALY the AFL has an ace representative by the name of Harry Goldberg. It is he who first dug up and called the world's attention to the fact that we were pouring hundreds of millions of dollars worth of military orders into Italian plants manned by Communist labor. Harry is as bitterly anti-Fascist as he is anti-Communist. Recently he single - handedly took on the neo - Fascist labor federation there, the CISNAL.

Under some law the CISNAL has hauled him up before an Italian tribunal for fighting and criticizing them. Goldberg, a U.S. citizen, faces a jail term.

Mrs. Luce, to the rescue, please . . .

KNOW THE NATURE of the enemy! — In a devastating report by the U.S. delegation to the U.N. due for the March 9 session of the Economic and Social Council, there is this grim note:

Sovietized Albania, now being used as a submarine nest by the Russian navy, has a penal code which says that "Even children who have reached the age of 12 are liable for punishment at corrective labor camps (slave labor) for alleged crimes against the state." Look at the 12-year-olds around you. Just imagine their being put to hard labor behind barbed wire for saying rude things about Eisenhower!

In little Albania alone there are 40 political prisons and concentration camps through which 80,000 men, women AND children have passed And in which 16,000 have died . . .

Rural Salem Minister Leads Church Services

Rev. A. E. Clark of Beech began his second week of evangelistic services Sunday night at Kelly's Island where Rev. W. L. Gunther is the host pastor at the EUB Church there.

Rev. Clark is spending his vacation on the island, but returns home to be in his own pulpit on Sunday mornings at the Rural Salem EUB Church.

Services were dismissed Sunday night at the Salem Church but next Sunday night, C. R. Rice of Martel will fill the pulpit here.

Chance To Save $38.50 Repair Bill Costs $90

LEXINGTON, Ky. (AP) — John B. Sheehy had a chance yesterday to save a $38.50 repair job on his automobile.

"Drive fast three or four miles," a mechanic told him, "and you won't have to pay for the carbon elimination job."

Sheehy was arrested for doing 90 miles an hour while trying to "blow out" the carbon.

He was fined $90.

LIGHT PLANE CRASHES

WEST MEMPHIS, Ark. (AP) — A light plane crashed in downtown West Memphis yesterday after striking a high wire but neither pilot Joe Bowen nor his passenger Paul G. McKinney, an Army photographer, was believed injured seriously. They suffered cuts and bruises. The plane apparently ran out of fuel.

Accidents took 91,000 U. S. lives in 1954.

Oddity Almanac

By Hal Boyle

NEW YORK Items from an oddity almanac:

Are men's shoes taking years off their lives?

A leather firm has raised the question whether the fact women wear much lighter footgear may partly explain why they live longer than men . . . Men's light summer shoes weigh three pounds a pair, heavy winter shoes five pounds or more.

HAL BOYLE

This firm figured the average man lifts a foot 33,000 times a day or a total of 41¼ tons of leather—if he is wearing shoes that weigh five pounds a pair. . .by wearing light shoes that weigh a pound less each he can take a load of 16½ tons off his feet every day. . . .

—:—

(MAYBE IF WE went barefoot, fellows, or better yet, stayed in bed all day, we'd live to be 100!)

The world of tomorrow: Fred Pittera, automotive showman, predicts speeds of 150 miles an hour will be commonplace on superhighways 25 years from now. . . accidents will be cut to a minimum . . .motorists will wear safety helmets as well as safety belts.

Almanac travel notes: More people in this world live on rice than on daily bread. . .but rice-short Japan is now trying to get more of its population to switch to wheat . . .some six million Japanese children in elementary schools now get bread at luncheon. . the country also is going in for television in a big way. . .what are the most popular programs? Baseball, wrestling, boxing—and old movies!

—:—

ODD FACTS: The giant new spectacular sign in Times Square, advertising a soft dring, has 35,000 light bulbs, and a 50,000-gallon-a-minute waterfall. . .a recent survey showed grade school students misspelled the simple word "question" in 152 different ways. . .but a common word that teen-agers often find hardest to spell is "etiquette". . .whether this proves anything, we don't know.

Almanac personality: Frank Luther, known as "the Bing Crosby of the sandpile set," believes he has told more stories to more children than anybody in history. . . at 55 Luther, who has been a cowboy, prizefighter, evangelist, detective and operatic tenor, has made 950 records for children since 1930. sales have reached the 65 million mark. . .Frank, who has two kids of his own, holds this theory about children:

"A child's emotional patterns are set for life by the time he is two years old. When he's six he speaks with his father's accent, he gossips about the neighbors like his mother, and he has the same attitudes towards other races and religions in life in general that those close to and around him have". . .in other words, whatever you do to yourself, you do to your children, too.

—:—

THE ALMANAC odds sheet: Anybody who wants to gamble but doesn't feel like supporting racehorses can still lose, his money in a respectable way by backing a Broadway show or drilling for oil. . .we don't have the odds at hand against your chances of getting rich quick on Broadway. But of 10,675 wildcat oil wells drilled in 1953, 9,254 did nothing but stir up dust. Only 13.3 per cent found oil.

Getting back to longevity, Henry J. Boyce of Providence, R.I., recently reached 96, was paid off by his life insurance company. . .and gave this recipe for a long life:

"Good food, good drink, good companions and good luck."

His business? Boyce has an interest in a funeral home!

State One of Union's Richest

Development of Natural Resources Pays in Ohio

COLUMBUS, Ohio (AP) — Because Ohio has a combination of vast industries, agricultural wealth and mineral resources, it ranks as one of the richest states in the United States today.

And according to the division of geological survey of the state department of natural resources, Ohio successfully has met the challenges of a modern day civilization for greater quantities of materials, a wider range of products and higher standards of quality.

It has done so because Ohio's mineral resources have both quantity and quality; these minerals are widely distributed; they occur under favorable conditions for recovery and have good marketing facilities over a great network of railroads and highways.

The geological survey division says an abundance of the common rocks and minerals and the diversified use of them have been important factors in the industrial and cultural development of Ohio.

The state's mineral resources include the non-metallic industrial minerals: limestone and dolomite, sandstone, clay and shale, gypsum, salt and brines, sand and gravel, and other minerals of minor importance in Ohio.

—:—

ACCORDING TO THE division, Ohio ranks first in the United States in the production of sandstone, leads in productions of clay and clay products and generally ranks second in limestone and dolomite production.

The state places third in the production of salt, fourth in value of sand and gravel production, and for more than two decades, has been the nation's greatest lime producer.

In addition, coal mining is the state's largest mineral industry.

Ohio's coal reserves are believed to be sufficient to maintain the state's industrial strength for many years.

The division says coal-bearing rocks of Ohio extend over an area of 12,340 square miles, underlying parts of 30 counties in the eastern and southeastern parts of the state.

The bituminous coal production of Ohio's mines contributes heavily to the state's industrial wealth. Coal is used to burn ceramic wares, lime, cement, and for the generation of 99 per cent of all the electric energy produced in the state.

—:—

THE STATE'S top-ranking in production of ceramic wares may be attributed to an abundance of clays and shales over extensive areas in eastern Ohio, says the geological survey.

Ohio's pottery clays are utilized for the production of heavy clay products such as brick, tile, sewer pipe and fireproofing.

Extensive deposits of limestone lie in the western half of the state, although eastern Ohio also has valuable deposits.

Limestone and dolomite are carbonate rocks. Although there is an abundance of limestone under Ohio, the requirements for high-calcium limestones, the premium product of the limestone industry, are so stringent that only in limited areas are they sufficiently pure for use.

The principal uses for high-purity limestone and dolomite are plaster, mortar, and other construction materials; ammonia, pulp and paper manufacture and glass making.

Most of the state's sand and gravel deposits, which form the backbone of the construction industry, are related to the glaciers that once covered western and northern sections of Ohio.

Considerable quantities of sand have been dredged from Lake Erie, but the geological survey says the industry has grown too slowly to keep pace with the current demand.

—:—

THE STATE LONG has been recognized as a pioneer and leader in the lime industry. Lime is a non-metallic mineral obtained by "burning" the carbonate rocks, limestone and dolomite.

The mineral is important in agriculture. When applied in proper proportions, it neutralizes acid soils and improves the texture of clay soils.

Ohio has great deposits of rock salt in the eastern and north eastern parts of the state which cover an area of over 9,000 square miles.

The salt is obtained by dissolving the rock salt in water which is pumped into the deposit, the salt being recovered from solution or the solution used directly in chemical manufacture.

Salt, together with limestone, forms the foundation of Ohio's great chemical industry.

Gypsum was first discovered and quarried in Ohio in 1821 on the shores of Sandusky Bay. This is still the only active area of gypsum mining and quarrying in the state.

The gypsum found in Ohio is known as massive or rock gypsum. It was deposited from sea water that evaporated in restricted basins in the ancient seas that covered northern Ohio.

—:—

GYPSUM IS USED in a wide variety of plasters and wall boards, as a filler in paint, paper and cloth, in insecticides and in dental and surgical plaster.

Approximately two-thirds of all building sandstones used in the United States is produced in Ohio. Sandstones underlie extensive areas in eastern Ohio. Through the years the state has become the center of the sandstone industry.

Sandstone is used for dimension stone and has a wide range of industrial uses.

The principal sandstone producing units include Berea, Clarion, Freeport and Marietta.

In the field of oil and gas production, the division says the peak in Ohio appears to have passed, and it is believed the great majority of the large reservoirs have been discovered.

Almost 65 per cent of the state's oil production has come from the trenton limestone in the Lima-Indiana field of northwestern Ohio.

However, nearly 2¼ million acres of land in Ohio is under lease as prospective oil and gas producing territory.

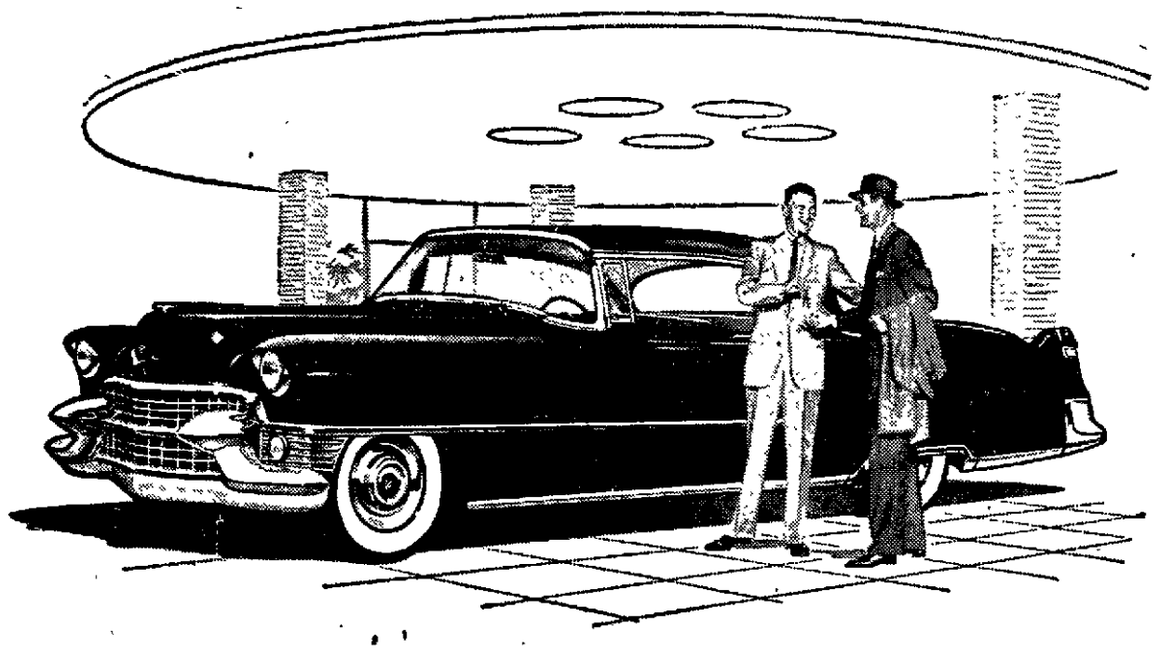
Cadillac



Acting on a 20-Year-Old Decision!

Let's suppose it was a couple of decades ago when a young lad, with his book strap over his shoulder and his lunch basket under his arm, started slowly down a dusty road that led to a country schoolhouse.

But his walk was short that day. For a big, handsome Cadillac—with its smiling driver traveling in the lad's direction—stopped and gave him a "lift."

And as he stood there on the schoolhouse lawn and watched the big car roll off into the distance, he made a decision. He decided that, some day, he would own a Cadillac.

And here you see him, his dream come true—taking the keys to a new 1955 Cadillac!

* * *

As a Cadillac dealer, we've been privileged many times to help make such a dream come true. And it never ceases to be a thrill.

But we do feel, in all sincerity, that many motorists—not realizing the Cadillac car is *practical* as well as *wonderful*—wait too long to make the move.

The lowest-priced Cadillac, for example, actually costs less than twelve different models of other makes. Its economy of operation is far beyond anything you could logically anticipate from a car of Cadillac's size and luxury. And at the time of resale, a Cadillac traditionally returns a greater share of its owner's investment than any other car in the land.

If, like the gentleman in the picture above, you have been looking forward to a Cadillac of your own—you should give careful consideration to these remarkable Cadillac facts.

It is entirely possible that the time for *your* Cadillac has come—and, as we said, it is always a pleasure to help make such a dream come true.

Better come in and see us today.

Band Scheduled for Dance at Bucyrus

Sauter-Finegan Program To Be Sponsored by City's VFW Post

BUCYRUS — The Sauter-Finegan orchestra will appear at Lutz's Rollerena Wednesday night, under the sponsorship of the Bucyrus Walter E. Bauer Post 1078 VFW Post.

Dancing will be from 9 a.m. until 1 a.m. Proceeds from the appearance will go toward the post's building fund. Nick Vasil, publicity chairman, said.

The band, already known through its recordings, is headed by two of the country's top arrangers, Ed Sauter and Bill Finegan. Sauter was responsible for most of Benny Goodman's famous arrangements and also wrote for Artie Shaw, Woody Herman, Red Norvo and Ray McKinley. Finegan wrote countless musical scores for Tommy Dorsey and was the musical genius behind the Glenn Miller orchestra.

Sauter and Finegan's distinctive music can be best summed up in two words, color and mood.

Like most top swing musicians and arrangers, Sauter's and Finegan's musical training has not been restricted to jazz. Sauter, born in Brooklyn, N. Y., played

Bill Finegan

Ed Sauter

trumpet and drums in Teacher's College Symphony while still a high school student. He studied theory at Julliard in 1935. His first professional job was at 17 with Archie Bleyer, but six years later he gave up the trumpet to concentrate on arranging.

Finegan, who was born in Newark, N. J., studied theory and piano at Rumson, N. J., High School and was playing professionally at the age of 16. He spent two years at the Paris Conservatory. He joined the Glenn Miller band as its arranger when it was first formed and remained with it until Miller accepted an Army commission.

The two first thought of teaming up after corresponding about music in 1939 when they met at a Benny Goodman opening in New York. Finegan stayed in Europe to study at the Paris Conservatory after the war, but the two continued writing one another about musical ideas. After Finegan's return to the United States, they began planning their orchestra.

Special Service To Be Held Here By Rev. Bob Wells

Rev. Bob Wells, bringing to Marion his Crusade for God and Country Friday night, will appear at Taft Junior High School auditorium. The service is being sponsored by the local chapter of the Christian Business Men's Committee International. Theme of the crusade is "Revival for Survival." Primary objective is "to influence people to accept the Christian faith and practice their newly found faith as members of churches of their own choice."

Music will be by the Marion Youth for Christ Choir directed by Rev. John Williams of LaRue accompanied by Miss Donna Eller of Marion. Mrs. J. W. Baker of Calvary EUB Church will be pianist for congregational singing led by Forrest Schickendonz, song leader and vocalist who travels with Rev. Wells.

A preacher of the Billy Sunday-Dwight Moody school, Rev. Wells is president of the American Evangelistic Association. He founded the Dallas Bible Institute. Previously he held various pastorates. He hold degrees of bachelor, master and doctor of theology.

Schickendonz, his song leader, is a tenor soloist. He has taken part in many citywide evangelistic meetings and has presented concerts throughout the country. Following work as musical director in two large churches he dedicated himself full time to evangelistic endeavor.

Time of the service here will be 7:30.

Galion Trouble Clinic Chooses New Officers

GALION—The third year of the Galion Trouble Clinic which was launched Saturday will have Miss Margaret Loris again as president. She has served as its head during the two years the clinic has been organized in Galion and she was one of the founders.

Miss Loris was elected Monday afternoon when the newly elected board of trustees held a meeting at Galion Community Hospital. Other officers chosen to serve with her are: vice president, Rev. Philip E. Auer; secretary, Miss Edna Smith; treasurer, Mrs. Grace Marshall. The group chose Dr. Robert Heudorf to have charge of public relations.

Trustees were elected when the Trouble Clinic held its weekly luncheon meeting last Friday. Those who will serve are: Miss Loris, Rev. Auer, Mrs. Marshall, Dr. Heudorf and C. Findley Boyd.

Oil Starts Trouble

CHICAGO (AP)— The order read: "fill 'er up" at 6211 N. Bernard St., the home of the Norman Bermants. Albert Berg, fuel deliveryman, removed the outside cap for the oil storage tank and delivered 250 gallons of fuel oil. He knew the place; he had delivered oil there before. It was just routine.

He realized he was at the Joseph Slonim home, a block away, at 6111 N. Brenard St., too late to prevent damage to a basement playroom.

The Slonims recently converted to gas heat and had removed their storage tank but left undisturbed the outside hose connection.

The "Carey Act" provides for grants of desert lands to states by the federal government, such lands to be irrigated or reclaimed by the states for disposal to bona fide settlers.

Hashmall Parole Hearing Scheduled

COLUMBUS, Ohio (AP)—The case of Frank Hashmall, self-admitted Communist now serving a one to 10 year term in Ohio Penitentiary, is among those receiving parole hearings this week before the state pardon and parole board.

The hearings, expected to last the remainder of the week, are being held at the penitentiary.

Harshmall is serving time on a charge of fictitious car registration. He was convicted in Akron.

In 1953 when the FBI in Cleveland arrested seven alleged Communists described as leaders and former leaders of the party's activities in Ohio, it placed a detainer against Hashmall. At that time he was described as a former chairman of the Hamilton County, Ohio, Communist chapter and former executive secretary of the Franklin County, Ohio, chapter.

Selection of Jury Continues

State To Use Same List Of Key Jelke Witnesses

NEW YORK (AP)—The task of picking jurors continues today in the new trial to determine whether playboy Minot F. (Mickey) Jelke induced girls into a life of cafe society vice.

Three married men were seated on the jury on the trial's opening day yesterday. Asst. Dist. Atty. Anthony J. Liebler predicted selection of the full panel would take two to three days.

Jelke, 25, heir to an oleomargarine fortune, was convicted on two counts of compulsory prostitution two years ago but won a new trial because the judge had closed the courtroom during the prosecution phase of the trial. Judge Francis L. Valente said he took this step to safeguard "public decency and morals."

Both prosecution and defense attorneys say the new trial will bring into the open the names of prominent men.

In his address to prospective jurors yesterday, Liebler announced that the state's principal witnesses will be the same cast of high-priced call girls, madams and male associates as in the first trial.

Liebler later specifically asked each prospective juror if he would look unfavorably on the testimony of a prostitute solely because of her being a prostitute. The three sworn in said they would not.

One of the 20 men examined yesterday said he could not believe a prostitute and was excused.

In his turn, defense attorney George Washington Herz asked

MINOT 'MICKEY' JELKE
Oleomargarine Heir on Trial

each juror if he would be prejudiced by Jelke's former "Bohemian life" or career as a "high-flying playboy."

He also asked: "If it develops during the trial that the defendant lived with Pat Ward in the same apartment for four or five months and during that period had sex relations with her . . . would that fact in and of itself prejudice you against this defendant?"

Pat Ward, 21, was the state's star witness against Jelke in the original trial. He was convicted of inducing her to "live a life of prostitution." The second count on which he was convicted alleged that he tried to do the same with Marguerite Cordova, 25.

Trustees Elected For Galion Chest

GALION — Five trustees elected to the Galion Community Chest board when the annual meeting of the association was held Monday night at the American Legion Hall, are: Ralph Workman, Eric Brooks and Arla Pfeifer, re-elected for three-year terms; and Veronica Kelley and Dr. Robert Heudorf, new members for three-year terms.

Edward Jones, acting president, presided. At this time there were activity reports by the Red Feather agencies. Sandra Slover reported for the Galion Youth Center; George Joachim gave a report for the Boy Scouts; Mrs. G. E. Patterson told of Girl Scout activities, and Mrs. Sara Beegle reported for the Galion Day Child Care Center.

Application was made for the Crawford County School for Mentally Retarded to be included as one of the agencies supported by the Community Chest. The USO is no longer continued as an agency because it has withdrawn from the United Defense Fund, and will conduct its own campaign for funds.

Last year's minutes were read by Grace Thomas, secretary, and a financial report of the campaign for funds was read by Albert Ritzhaupt. Some divisions have not reported donations, it was noted.

TRUSTY ESCAPES

SANDUSKY, Ohio (AP) — Sheriff's deputies said today Thomas B. Womac, 29, has escaped from the Osborn State Honor Farm southeast of here. Womac, a Mansfield Reformatory trusty, was sentenced from Cuyahoga County for breaking and entering.

THE MAGNIFICENT PACKARD PATRICIAN—"ASK THE MAN WHO OWNS ONE"

...with exclusive Torsion-Level Ride and the World's most powerful engine!

America's *new* choice in fine cars — the great *new* Packard—is the result of years of planning, designing and testing to build an individually distinctive automobile embodying more engineering advancements than any automotive achievement of our time. You will find it the most luxurious car in a long line of history-making Packards. The *new* Packard truly reflects your pride in the finest.

NEW TORSION-LEVEL RIDE automatically levels the load . . . smooths the road. Imagine not knowing or caring whether the road under you is rough and pitted or boulevard smooth! Incredible? Yes! And until you experience this new kind of ride, you can't begin to realize the importance of Packard's exclusive system of unitized torsion suspension that makes it possible.

Instead of using conventional coil or leaf springs to cushion the bumps, full-length torsion bars absorb road shocks automatically before they can reach you. Driving is easier, less fatiguing and much safer. And an ingenious power-controlled levelizer keeps the *new* Packard always on an even keel. Compare this *new* Packard with whichever car you think is the finest made in America today. You are invited to give both cars the same tests over the same terrain. Then decide which offers the most truly luxurious performance.

POWER-PACKED PACKARD V-8's . . . 260 AND 275 HORSEPOWER built by the master motor builders who pioneered the V-type engine. The most powerful engines in any production car today . . . 260 horsepower in the Patrician and the Four Hundred models, 275 in the Packard Caribbean . . . created for the most discriminating motorists in America.

NEW TWIN-ULTRAMATIC TRANSMISSION is actually two automatic transmissions in one — puts a choice of starts at your finger-tips . . . lightning getaway . . . ultra smoothness for traffic.

ADVANCED GRACEFUL STYLING of this new Packard is the most distinctive of all motor cars. Long low lines . . . massive grille . . . gracefully tailored rear deck . . . every detail of design bespeaks Packard distinction and good taste. Interiors are breath-taking . . . reflect the decorator-smart fashions of today's finest homes. We invite you to come in for a *Test Ride* in this *new* kind of fine car.

LaRue Will Continue Tournament Action Thursday

Indians Meet Newark Foe In Drive for District Finals

LaRue, lone Marion County survivor in tournament action, will meet a rugged Newark St. Frantis squad Thursday night at Capital University's gymnasium in a semifinal clash in the Central District Class B tournament.

On the same night, Mount Gilead's defending district champions, will battle Liberty Union at Otterbein College. The defending champs will be seeking their third victory in tourney action. They previously have eliminated Ashville and Amanda. The Liberty Union squad claims wins over Marion County's other two entries, Prospect and Claridon.

In the other semifinal game at Otterbein, slated for Wednesday, Columbus St. Mary will meet a surprising Magnetic Springs quintet while at Capital Fredericktown and Northwestern will meet for a spot in the finals.

Championship games at both locations are scheduled for Saturday at 8 p.m.

—:—

LARUE WILL BE seeking its 19th victory of the season against three setbacks when it takes on the rugged Newark St. Francis five. Newark, with a 22-2 mark, was one of the seeded squads at Capital and a strong favorite to win the event there. Paced by Bob Franks, the LaRue foe lost only to Columbus St. Mary's strong quintet and Zanesville Rosecrans during the season.

LaRue whipped Scioto 74-65 in its first Central District Class B test last Friday to advance to he semi-finals a Capital. Larry Hickman poured in 35 points during that game while Bill Guthery had 12, Raymond Hosey 11 and Keith Cooper eight.

Hickman was LaRue's big gun during league and tournament play the past season. The 5-11 forward notched 223 points in 10 league tilts for the county loop co-champs and tournament runners-up and added 83 in tourney play. Raymond Hosey supported him with 173 markers in league play and 61 in tournament competition.

LaRue's three losses during the year came at the hands of Prospect twice—the last meeting by a 57-56 margin in the county tournament finals — and Huntsville.

San Francisco Tops Kentucky On Final Ballot

By JOHN CHANDLER
Associated Press Staff Writer

The San Francisco Dons, leader in The Associated Press poll of college basketball powers for the last four weeks, remained in the No. 1 spot today after a close ballot duel with Kentucky.

With San Francisco, Kentucky and other teams headed into tournament play; the final regular-season poll of the nation's sports writers and sportscasters brought out a heavy vote.

A total of 171 votes were cast, San Francisco receiving 67 for first place and Kentucky—which finished the 1954 season as No. 1—collecting 58. On points, based on 10 for first, 9 for second, etc., San Francisco received 1,424 and Kentucky 1,358.

LaSalle, heading into defense of its NCAA title scramble along with San Francisco and Kentucky, clung to the No. 3 place with 1,043 points.

A couple of late upsets juggled the top 10 rankings, as the conference championships were decided. Iowa, rulers of the Big Ten and ranked only No. 12 last week, leaped all the way into the No. 5 place. Minnesota, beaten by Iowa and then by Wisconsin, skidded from No. 6 to No. 11.

UCLA, in ninth place last week, lost a pair to Oregon State as the Pacific Coast race was decided, and dropped to No. 13 with the Northern Division champions taking over the No. 10 spot. Marquette, fourth a week ago, dropped to eighth after being defeated by Notre Dame.

North Carolina State moved up a notch to No. 4 after winning the Atlantic Coast Conference tourney. Duquesne jumped from No. 8 to sixth. Utah remained No. 7 and Dayton advanced a notch from 10th to ninth.

The leaders, with first place votes in parentheses:

1.	San Francisco (67)	1424
2.	Kentucky (58)	1358
3.	LaSalle (5)	1043
4.	N. C. State (3)	788
5.	Iowa (15)	734
6.	Duquesne	605
7.	Utah (4)	581
8.	Marquette (4)	499
9.	Dayton (3)	306
10.	Oregon State (5)	286

SHORT SPORTS

By John Short

Three former professional baseball players in Marion currently are working on plans to field a team the coming season.

SHORT

The three former pros, all planning to sit out the 1955 campaign, and a fourth expected to join the team form the nucleus of a club capable of competing in any league operating in the Central Ohio area.

The three pros already available are Don Johnson, George Stoffer and Dick (Squint) Roseberry, with Clyde Seedle expected to join. Those names should be familiar to any Marion baseball fans. While playing for Harding High School in 1948 and 1949, they helped the Prexies move to a district title and to the semifinals of the state tournament. They also gave Marion's Junior American Legion team a potent attack during those years.

—:—

JOHNSON HAS completed two years in the pro ranks, pitching with the Cincinnati Redlegs' Superior, Wis., Class C team and the Brooklyn Dodgers' Class A club at Greenville, S. C.

Stoffer played only one year professionally before entering the Navy. He put in that action at Zanesville in the Ohio - Indiana League as an outfielder after starring at Harding as a home run slugger. Roseberry also has been recently released from military service but prior to that had played at Fayetteville, N. C., where his brother Joe was manager.

Seedle was in the Boston Red Sox system for the 1950 season but has been serving in the Navy since that time.

—:—

THE PROPOSED team would be rounded out by other members of the Harding squad, all of them top-flight players in their own right. The list probably will include Jack Daum, Paul Cramer, Richie Wolfe, Merle Daum and Dick Gherman.

The four former professional players will be in Marion for various seasons this season. Three of them wish to spend a little time at home after their service hitches but Johnson probably has the top reason.

He is to be married Sunday to Miss Patricia Dixon and says he refuses to ask his bride to accompany him on a summer-long series of two and three-day stands.

Robinson Banned

BOSTON (AP)—Boxer Sugar Ray Robinson has drawn what amounts to a lifetime ban in Massachusetts for his last-minute pullout from last Saturday night's scheduled bout with Georgie Small of Brooklyn. But the dapper ex-middleweight and welterweight king will be free to fight elsewhere because—after Robinson agreed to pay the $3,500 losses suffered by promoter Sam Silverman — the Massachusetts Boxing Commission did not press for a general ban by the National Boxing Assn.

Stan Hack, manager of the Chicago Cubs, played third base on four pennant-winning Cub teams — 1932, 1935, 1938 and 1945.

AGILE PHIL. Veteran New York Yankees' shortstop Phil Rizzuto shows he still has plenty of zip as he goes off the ground during training drill at St. Petersburg, Fla., and gloves ball toward Gerry Coleman at second base. Phil is looking forward to a much better season than last when his batting average slumped to .195.

Bowling

Emmett Shuster cracked 224-600 to set the pace in the Mercantile League at Marion Recreation Monday. Joe Steerman hit 207-530, Earl Emery 521, and Bill Kelly 210. Sinclair captured team honors with 862-2314.

Monday Night Ladies League keglers at Palace Recreation were topped by Emily Stephenson's 189 and Marge Krausz's 507. Dorothy Rinehart smashed 183-502. C. Bayless turned in a 5-7 split. Val Mar posted high team scores by rolling 862-2416.

Maury Coen's 241 and Joe Nicolosi's 557 showed the way in the Home League. Coen totaled 551 while Nicolosi had a 212 game. Bill Daugherty hit 202-548, R. Gibson 204-514, and G. Barkley 210-520 for other top scores. Team honors went to Maury's Bar with 895-2395.

Nite Shift League bowlers were paced by Tom Lavin's 201-537 showing. Other top series were Bob Maynard's 520, Bob Disbennett's 512, Charles Bloomingdale's 503 and Don Chase's 500. Bill Young's Shell walked off with team laurels by hitting 797-2261.

Four games of 200 or better were recorded in the Utility League with Sam Davis' 212 tops. Bill Burke shot high series, a 547. Bordens, with 886-2572, led the teams.

Harold Coffee's 256-563 performance was tops for men keglers in the Palace Mixed Doubles League. Lornie Morris had a 244 game. Women were paced by Ruth Pritchard's 162 and Marge Krausz' 475. Krausz had a 161 game. Splits included a 2-7-10 by Marguerite Spurlock, 4-7-9 by Earl Gustin, and 6-7 by John Richards. Royals with 667 and Aches & Pains with 1882 shared team honors.

Lornie Morris' 230 game led a list of five in the Palace League. Henry Pritchard hit 612 for top series. Team honors went to Corner Grill with 1004-2701.

NCAA Play Opens With Four Battles

By ORLO ROBERTSON
Associated Press Staff Writer

LaSalle's Explorers, led by three-time All America Tom Gola, open defense of their national intercollegiate basketball title tonight, meeting West Virginia's Southern Conference champions in one of eight preliminary games scheduled for four cities.

Actually, the NCAA Tournament gets under way before the field of 24 is completed. The Ivy League, which ended in a three-way tie as Princton defeated Brown 58-39 last night, will decide its representative at Rutgers tomorrow night when Columbia meets Princeton.

Columbia eliminated Pennsylvania 73-71 in a game played after the Princeton-Brown contest. The Ivy champion will not swing into NCAA action until Friday when it has the unenviable task of facing the LaSalle-West Virginia winner at Philadelphia.

LaSalle (22-4) and West Virginia (19-10) wind up a triple-header at New York's Madison Square Garden. Williams, (17-1) New England representative, takes on Canisius (16-6) in the first game and Duke (20-7), runner-up to ineligible North Carolina State in the Atlantic Coast Conference, meets Villanova (16-9).

The other preliminary round games will be played at Lexington, Ky., El Reno, Okla., and San Francisco.

Marquette, which had the unique regular season record of losing its first and last games but winning 22 in between, takes on Miami of Ohio (14-8), the Mid-American champion, at Lexington. The other game matches Penn State (17-8), third in last year's championship, and Memphis State, a small college powerhouse which put together a string of 16 straight in compiling a 17-4 record.

San Francisco's Dons, the nation's No. 1 team with a 23-1 record and featuring All America Bill Russell, swing into action against West Texas (14-7), Border Conference representative, at San Francisco. On the same card, Idaho State (18-7), Rocky Mountain Conference titleholder, tackles Seattle (19-5) in the fifth meeting of the year between the two teams. Seattle holds a 3-1 edge.

The last two at-large teams to be selected for the championship, Bradley (7-19) and Oklahoma City (9-17), battle it out at El Reno.

From the four sites the winners will move into Friday's regional playoffs at Philadelphia, Evanston, Ill., Manhattan, Kan. and Corvallis, Ore. Finals will be held in Kansas City March 18-19.

MEEKER BANQUET SET

Meeker High School's basketball banquet will be held Tuesday, March 29 at the school. Ray Robbins, football and basketball coach at Marion St. Mary High School, will be speaker. Varsity and reserve basketball awards will be made by Coach Walker Huffman and junior high awards will be presented by Coach Robert Litell.

2 Juniors Named

OSU's Freeman Wins Spot On All-Big Ten Cage Squad

CHICAGO (AP)—A blend of scoring power and play-making — an unbeatable combination—marks the 1955 all-Big Ten basketball team named today by The Associated Press.

A six-man unit instead of the regular five was named by the selection board of AP sports experts stationed at all conference points.

The No. 1 lineup includes Dick Garmaker and Chuck Mencel from runnerup Minnesota; Bill Logan of Iowa's championship team; Northwestern's Frank Ehmann; Indiana's Don Schlundt, and Ohio State's Robin Freeman.

All are seniors except Freeman and Logan, who are juniors.

Schlundt, 6-feet-10, Garmaker, 6-feet-3, and Ehmann, 6-feet-3, finished 1-2-3 in the Big Ten scoring race. Logan, Iowa's 6-feet-6 rebound star, also did his share of sharpshooting and was the champions' valuable play-maker.

Freeman, smallest man on the squad at 5-feet-10, was regarded one of the best marksmen in Big Ten history and specialized in a nearly unstoppable jump shot. He won All-America honors.

Freeman dropped out of school because of an ankle injury and illness after playing in only six of 14 conference games. During this competition, however, he averaged 27.8 points and averaged nearly 10 points better than that in early non-league action.

Schlundt made the all-conference team for the third season. Garmaker also was a holdover from 1954. Mencel, a terrific outside shooter and ball-feeder, regained a top berth after being a first-team choice in 1953. He was on the second lineup in 1954.

Ehmann, greatest scorer in Northwestern history, also advanced from last year's second team.

Garmaker was the only unanimous choice of the 12 men voting. Mencel was second in the tabulation, missing only two first team selections.

Tebbetts Signs New Contract At Cincinnati

TAMPA, Fla. (AP)—The pitching problem at the Cincinnati Redleg spring training camp has a battermate—the catching problem.

Andy Seminick, 34-year-old veteran, is getting to the point where it's going to be tough if he has to catch in 100 or more games.

But Manager Birdie Tebbets isn't too pleased with the batting performances of Seminick's stand-in, Hobie Landrith, who hit .198, and Ed Bailey, who made .197 last season.

Tebbetts did solve one personal problem yesterday—where he's going to spend the next three years.

Owner Powel Crosley Jr. tore up the old pact and signed the popular Birdie to a new contract which according to Crosley was "definitely better for Birdie with a substantial raise."

While no official figures were released, Birdie is probably set for around $25,000 annually.

"Birdie is the type of manager we need from the sample he showed us last year and I'm certainly delighted to say that he'll be with us through 1957 at least," Crosley said.

Tebbetts commented that when he went to manage Indianapolis of the American Association he thought he could work himself up to the majors in three years.

"But I made the majors considerably sooner than I thought," he said. "And now I hope I'm not working my way down in three years."

Basketball Benefit Event Set Wednesday at Baker

A benefit basketball event has been scheduled for Wednesday night at the Eber Baker Junior High School cage floor.

In a preliminary contest scheduled for 7 p.m. a pair of teams composed of reserve teams players at the school will clash. In the main contest, the Baker varsity quintet will meet the Marion Schoolmasters squad. Special entertainment has been arranged for the halftime intermission of the main game, Coach Don Zeisler announced today.

Proceeds from the game will go to cover the cost of the school's athletic banquet scheduled for March 17.

The U. S. marriage rate in 1954 was 9.1 per 1,000 people.

Wininger Cops Playoff Round At Baton Rouge

BATON ROUGE, La. (AP) — Chunky Bo Wininger today headed for a week's rest at his Oklahoma City home with his first PGA tournament victory and the $2,200 first prize in the $12,500 Baton Rouge Open Golf Tourney.

After a week's layoff the touring professionals play next at St. Petersburg, Fla.

The 5-7, 37-year-old Oklahoman, displaying accurate iron shots and deadly putting, easily trounced Jimmy Clark, of Laguna Beach, Calif, and Billy Maxwell, of Odessa, Tex., yesterday in an 18-hole playoff for first money.

Wininger stroked a 6-under-par 66, four strokes better than Clark, who won the $1,500 second money. Maxwell, who had putter trouble, shot a 1-under-par 71 to take home $1,170 third-place money.

The three deadlocked for first Sunday with 72-hole totals of 278.

Hopes for Action

Bob Feller Adds Knuckler, Sinker Throw to Deliveries

TUCSON, Ariz (AP)—Bob Feller is working on a new pitch and hopes to get into more than just a few games this year for the Cleveland Indians

'If I'm not quite as fast as I was" in 1936, he said yesterday, "I've made up for it by developing a sinker I've learned to make 'em hit the ball on the ground and depend on the infield behind me And I'm still working on a knuckler Up to now I've used it mainly as a change-of-pace, but one of these days I ll get guys out with it You wait and see"

Feller's worries about getting into games results from the good supply of chuckers available to Manager Al Lopez Feller admitted picking an order using so many pitchers is not easy

'Lopez probably knows as well as I do that I don't need two weeks rest between starts,' the pitcher said "But he can't break up the rotation of the Big Three just to get me into a game when I happen to be ready"

'It isn t going to be any easier for Lopez this year, and if Herbie Score comes through it will be a lot tougher He'll have the Big Three plus Score, plus Art Houtteman, and after that will come me —maybe All I can do is try to be ready when he needs me I think I will be," Feller continued

The pitcher predicted the Indians will be "as good as we were last year Maybe we ll be a good bit better"

Feller had a 13-3 record last year Of the Big Three Mike Garcia was 19-8 Bob Lemon 23-7 and Early Wynn 23-11 Score, a rookie up from Indianapolis, had a 22-5 mark in the American Association

If Lemon can win 20 or more games this season, he will become one of six men to do it seven times

Lopez says there is "no reason why' the 34-year old righthander can't succeed "Lemon ' he explained, "started pitching late so he still hasn't reached his peak"

'The muscles in your arm are like pieces of elastic Stretch 'em often enough and they wear out But Lemon hasn t pitched any more than someone four or five years younger His arm is still strong" the manager added

Lemon broke in as an infielder and didn t change over to pitching until 1946

The pitcher said he felt well enough for 20 games but added that luck played a part 'Sometimes it s not how you pitch but when you pitch that counts A guy can have all the stuff in the world and lose 1-0 Next time out he can win without having a thing, if he gets the runs"

Player Shifts Made

Yost Studies as Outfield Prospect at Washington

BY SHELDON SAKOWITZ
Associated Press Staff Writer

Major league managers often experiment during spring training with position shifts designed to strengthen their clubs These shifts don't always work out but there s no harm in improvising with the material at hand

This season has been no exception The big league skippers have been switching players all around

The Washington Senators have been toying with the idea of moving third baseman Eddie Yost to the outfield provided an adequate replacement can be found

Manager Chuck Dressen and coach Cookie Lavagetto, a former top third sacker, have been concentrating on polishing the play of 18-year-old Harmon Killebrew They are striving to improve the bonus youngster's throwing with hopes of stationing him at third

Dressen also is looking over some other prospects on the 50-man squad in an effort to send Yost to the outfield

Chicago White Sox skipper Marty Marion shifted two of his rookie infield prospects to the outfield in an intrasquad game yesterday First baseman Jim Marshall and third baseman Joe Kirrene were the displaced players as the "Myatts" edged the "Gutteridges" 5-4

Brooklyn Dodger manager Walt Alston named his starting lineup for Thursday night s opener with the Milwaukee Braves and veteran shortstop Pee Wee Reese was not listed Alston considers Reese his regular shortstop but would like to see him perform at both second and third base

Milwaukee Braves' Manager Charlie Grimm has two young shortstop prospects in camp—Al Facchini and Bill Caro—so he put Caro at third in yesterday's intrasquad game Grimm elated at their 'surprising ability," said They looked sharp in our early workouts last week but did even better in competition"

Delaney Stops Al Wilson in Video Slugfest

NEW YORK (AP)—Ronnie Delaney a lefthander middleweight, is a sensible young man At 25 years of age, he has acquired a wife and five children. He even likes fighting

But he likes money better.

"I'm after some real money in this game now," Delaney said today "I've been fighting for small purses long enough"

If he can find some opponents Delaney might get that pot of gold Right now, he spends most of his time earning a living as a laborer in the county engineer's office in Akron, Ohio

He punched out a unanimous 10-round decision over Sugar Al Wilson last night in St Nicholas Arena On the heels of his non-title decision over champion Johnny Saxton, he now has the credentials to hold out for a big bundle of cash

"That Wilson is a rough customer" said Delaney, who has lost only one fight as a professional while piling up 49 victories 'He can take a punch and sure don t look as though he was afraid of me because I m a lefthander"

Delaney was a 3-1 favorite, mostly because he is a southpaw They are hard to fight but you wouldn't think so to watch Wilson He just kept boring in and it was his misfortune that he didn't get in the solid blows.

The decision was unanimous, although the officials saf it in varying degrees Referee Teddy Martin had it, 8 2 Judge Artie Schwartz 7-3 and Judge Tony Rossi 6-4 The Associated Press card had it 6-3-1

At Eastern Parkway Arena in Brooklyn, Gil Turner dropped Joe Miceli among the has-beens with a TKO in 44 seconds of the eighth of a scheduled 10 Turner a Philadelphia middleweight, may fight Gene Fullmer of Salt Lake City at the Parkway April 4 His manager, George Katz, wants him to campaign strictly in the middleweight division from now on

Referee Petey Scalzo stopped the bout when Miceli s left eye almost closed Turner weighed 155½, Miceli 147

Fights Last Night

NEW YORK—Ronnie Delaney 149½, Akron Ohio, outpointed Sugar Al Wilson, 147, New York 10

BROOKLYN—Gil Turner, 155½ Philadelphia stopped Joe Miceli 147, New York 8

Toronto—Earl Walls, 198¾ Toronto drew with James J Parker, 210, Paterson, N J , 12

BOXING EVENT CANCELLED

CLEVELAND (AP)—A boxing card scheduled for March 17 at Cleveland Arena has been called off because of an injury suffered by Chico Vejar, promoter Larry Atkins said today Atkins said he had planned to match Vejar against either Raybon Stubbs or Red Tanghs Vejar suffered an eye injury in a bout he won Friday at New York from Billy Graham

Benefit Contest For Baron Ace Set March 16

CLEVELAND (AP)—Proceeds from the Cleveland Barons' next home game, March 16, will be turned over to Glen Sonmor left wing, who lost the sight of his left eye in a hockey game accident

James C Hendy general manager of Cleveland Arena, said 'it will be strictly a 100 per cent benefit The only deductions will be for federal and city taxes, which we cannot avoid The American League s usual five per cent will be waived and the Arena will assume all expenses such as ushers, ticket takers and other costs'

Sonmor was hit in the eye by a glancing puck in a game Feb 23 at Pittsburgh Doctors there said yesterday he would lose the sight of that eye

It was the most serious injury in the Barons' 26-year-history

Hendy s decision to turn over proceeds from a game against Pittsburgh came after he 'regretfully" turned down an offer from the world champion Detroit Redwings

The Wings said they would come to Cleveland for a benefit Hendy had to decide against that because the Barons have three road games scheduled starting Thursday

Grand Rapids, Toledo Collide In Playoff Bid

By The Associated Press

Grand Rapids and Toledo battle tonight as the International Hockey League starts its last week of the regular season in a close race of also rans

The Cincinnati Mohawks winners of their third straight IHL championship, and the Troy Bruins now in second-place by a half game have earned berths in the four-team playoffs But the other two spots are still up for grabs

The Rockets from Grand Rapids will be carrying a three-game winning streak into their contest and another victory would give them a spot in the playoffs to be held next week Last place Fort Wayne has been eliminated from playoff possibilities The Toledo Mercuries victors in two of their three ice outings last week are in fourth place 1½ games behind the Rockets.

Unless Johnstown expects to get hot, which it wasn t last week, it will be left out

The IHL govenors will select dates and sites as soon as the No 2, 3 and 4 spots are filled definately

Since Cincinnati has taken the title, it has been somewhat relaxed. It lost two of its last four tilts

Bucyrus

The Bucyrus chapter of the American Association of University Women entertained area high school seniors at its annual College Night program at the King's Daughters' Chapter House Thursday night. The program included several vocal selections by Mrs. Robert Neff and a talk on silver was given by Mrs. Fred George, a home economist. The committee included Miss Aileen Philbin, Mrs. W. R. Michael, Mrs. L. C. Wertz, Mrs. J. Tressler and Mrs. F. H Roberts

Ashley

Carolyn Duerr, daughter of Mr and Mr. Carl Duerr of Ashley, was the winner of a "Homemaker of Tomorrow" contest held recently at Elm Valley High School. She received a gold pin and will receive a set of cook books. Another set of books will be presented to the school.

Miss Duerr will enter the state competition with a chance to move into the national events. Sponsored by a food company, the contest will bring a $1,500 scholarship to each state winner and a set of the Encyclopedia Brittanica to the school. the contestant winning the national contest will receive a $5,000 scholarship.

Cardington

Mr. and Mrs. Ivan Schenck of Cardington have received word that their son, Robert Schenck, arrived in Clarenville, Newfoundland, last Wednesday, two days after leaving by plane from Columbus. He will run acceptance tests during the installation of the trans-Atlantic cable by the American Telephone & Telegraph Co. His work will include training of Canadian personnel in the operation and maintenance of equipment. A maintenance supervisor with the A T & T, he has been located in Cuyahoga Falls for the past eight months.

Schneck served with the Marines during World War II as a radio operator. He reports shirt-sleeve working weather in Newfoundland where he occupies a housetrailer as his living quarters. Work quarters are modern on the Newfoundland end of the America-Scotland cable and Schneck will be stationed there for a period of one year to 18 months.

—:—

Mr. and Mrs. Glenn Hawk this week took possession of the Clover Farm store in Marengo which they recently purchased. Hawk is employed at the Hydraulic Manufacturing Co. in Mount Gilead and Mrs. Hawk is in the store full time. Mr. and Mrs. Sam George have purchased the Hawk residence in Cardington and will move into their new home about the first of April when the Hawks go to Marengo.

—:—

"The Christian Advocate," the Methodist weekly publication for general church work, carried a picture story in their March 3 issue of the Leonardsburg Methodist Church's mud chapel model. The Leonardsburg congregation is raising funds to build a church in Korea and the model has been built as the funds come in. At present, only the roof remains unfinished. Rev. M. Elizabeth King, pastor of the Leonardsburg church, is a resident of Cardington.

Galion

Galion Community Hospital is being represented this week at the state meeting of the Ohio Hospital Association, March 7-10, at the Netherlands Plaza Hotel in Cincinnati. Attending from Galion are David Wires, administrator of the local hospital; Miss Jean Plack, director of nurses; Mrs. Herbert Cobey, a member of the board of trustees of the hospital; Mrs. Charles J. Griebling Sr., president, and Mrs. Carl Adams, treasurer of the Woman's Hospital Auxiliary.

Now residing in Galion are Mr. and Mrs. Donald Weaver who were married recently. They exchanged vows in a Methodist parsonage at Richmond, Ind.

The bride is the daughter of Mr. and Mrs. Robert R. Hartman of Crestline. She was graduated from Crestline High School in 1954 and is employed at the Shelby Salesbook Co. Mr. Weaver is the son of Mrs. Leonore Weaver of Galion and Clyde Weaver of Mansfield. He is employed at the Perfection Steel Body Co. here.

—:—

Announcement has been received here of the birth of a daughter, Feb. 20, to Mr. and Mrs. Donald Taylor of Richmond, Va. The maternal grandparents are Mr. and Mrs. Paul Warwick and the paternal grandparents are Mr. and Mrs. William E. Taylor, all of Galion area.

Carey

The regular meeting of the Carey Fortnightly Club was held Thursday night with Mrs. George Snyder. Mrs. H. L. Wenner of Upper Sandusky had charge of the topic of the evening.

Nevada

The home of Rita and Riley Stover was meeting place of the YTC for the March meeting. The music and community service committees reported on the institute to be held March 11 at the Evangelical and Reformed Church at Sycamore. The leader, Mrs. Eyestone, reported receiving the prayer cards to be distributed. Music was presented by Carol Stover. Refreshments were served.

—:—

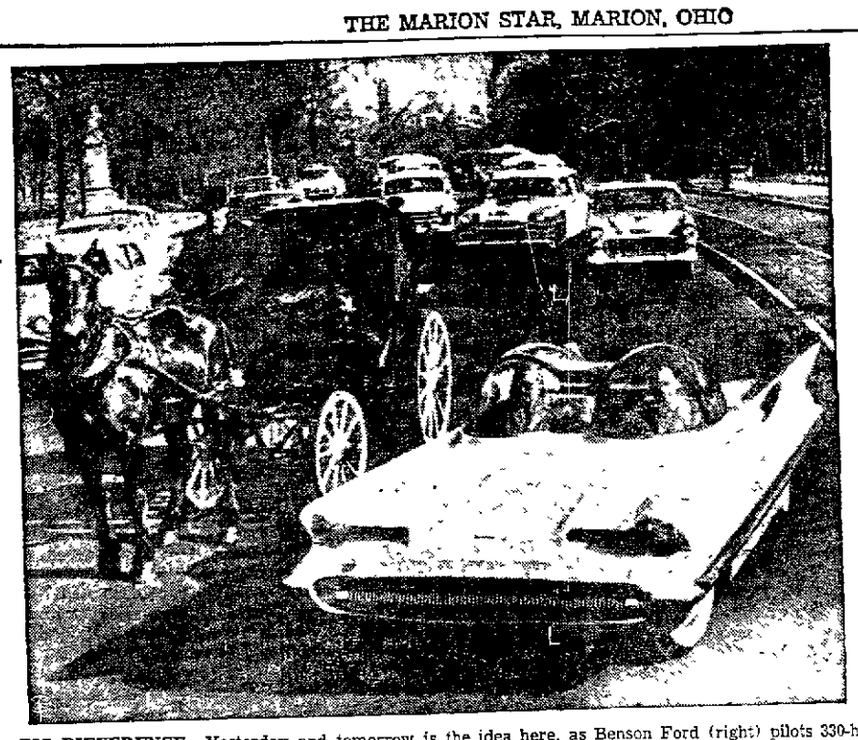
The Pythian Sisters met in regular session Tuesday night with 30 members and three guests present. During the business session plans were made to invite all temples of the district and Morral Temple to inspection to be held April 19. After the close of temple, a joint meeting was held with the K of P's grand vice chancellor, James Leonard, and past grand chancellor and past keeper of seals and records, Glen Sparks, of Columbus, district deputy Clifford Clements of Van Buren and A. Campbell of Findlay. A potluck supper was served.

—:—

The Antrim Demonstration Group gathered at the home of Mrs. Ralph Swihart, southeast of Wyandot, Thursday for the March meeting. The lesson topic, "Mending Better Clothes," was led by Mrs. Robert E. Koehler and pennies for friendship were collected. Miss Blanch Balliet was elected junior counselor. The group adopted the name of 4-T Home Demonstration Club and voted to keep the counselor and officers. A potluck dinner was served at noon. Meetings will be resumed in the fall.

—:—

The following members of the Nevada Eastern Star attended the golden inspection of William Myers Chapter at McCutchenville Tuesday night: Mrs. Ted Jury, Mrs. Jesse Steiger, Mrs. Walter Elweet, Mrs. Dale Heistand, Mrs. Clifford Wilson, Mrs. Milton McConahy, Mrs. Robert Miller, Mrs. Paul Gongwer, Mrs. Ruth Jury, Mrs. Roy Spalt, Mrs. Mary Yoeman and Mrs. Merl McClintock.



BIG DIFFERENCE. Yesterday and tomorrow is the idea here, as Benson Ford (right) pilots 330-hp automobile past 1-hp hansom cab in New York's Central park in a demonstration for reporters. Beside Ford is Ralph Kimbrough, Ford style executive. The Futura, which Ford called a $250,000 laboratory on wheels, is almost 19 feet long, seven feet wide and only 52-inches high It has push-button turbo-drive automatic transmission, with controls on a center pedestal arm rest. No windows. That top is a twin plexiglass dome which lifts and lowers over driving compartment.

Morrow Fair Board President Resigns

MOUNT GILEAD — Walter Hardesty of Marengo, president of the Morrow County Fair Board the past two years, submitted his resignation at the meeting of the county Agricultural Society.

Hardesty gave ill health as the reason for his resignation. The Morrow County Commissioner and Marengo hardware dealer, in addition to serving as president, was head of the fair's cattle department for a number of years.

Fair board members Carroll Lloyd and Merrill Cowgill were named to a committee by president Walter Long to name a new member of the board from Bennington Township.

At the meeting the fair board also voted to have three days of racing at this year's fair as in the past.

Galion Slated for First Bloodmobile Visit of '55

GALION — As Galion prepares for its first Red Cross Blood visit in 1955, scheduled for this Wednesday, it is hoped that the city can maintain its 1954 record.

Last year Galion led the 27 Red Cross chapters in the Columbus Regional Blood Center in percentage of quota of pints of blood given. The quota for Galion was 450 pints and the local chapter exceeded that number in 1954.

Galion's dean of blood donors is Arla Pfeifer who has given 26 pints since she first gave in 1941.

Richard Pancoast is Red Cross blood donor chairman in Galion. The visit by the bloodmobile unit this Wednesday is sponsored by the North Electric Manufacturing Co. The quota is 200 pints. Peace Lutheran parish house is again the headquarters for the unit. Beginning at 10 a.m., 10 donors are scheduled for every 15-minute period.

Local physicians and nurses are volunteering services, and women of the church are in charge of the kitchen. The canteen will be in charge of volunteers of the high school.

5,200 ATTEND TOURNAMENT

MOUNT GILEAD — A total of 5,200 paid to see six sessions of the Morrow County basketball tournament according to W. G. Spies, Chesterville Superintendent of Schools, who is chairman of the county athletic committee. Financial report for the tourney will be made later.

News of Granges

MOUNT OLIVE

Mount Olive Grange, Green Camp, voted at the Thursday meeting to support the state grange and stand opposed to the conveyor belt that is being considered by the Ohio State Assembly for the northern part of the state. Later the group expects to see a film on this belt.

The membership contest was officially closed and the team captains reported. Mrs. Joe Lyons' team won with 17 applicants while Wilford Porter's team lost with five. The losing team will be in charge of the program and refreshments at the next meeting.

Joseph Rupp and Gene Mash joined the group at the March 3 meeting. At Thursday's meeting following joined by demit, Edwin Gulliford and Mrs. Norman Withow; by reinstatement, Kitty Kemptor new membership, Mrs. Cora G ford, Opal Smith, Clifford Smith, Dorothy A. Sult, Harold A. Sult, Richard Allen Lyon, Bruce Kay Beers, Floyd Harold Beers, Glen E. Decker, Mrs. Joseph Rupp and Ronald Converse.

During the program, the grange played host to the 4-H Club in honor of National 4-H Club Week which began March 5. The club had its installation of officers. The installed officers are: the Junior Busy Bees, Marcy Jean Davis, president; Barbara Hedges, vice president; Kay Wixstead, secretary; Janice Foos, treasurer; Nancy Nothstine, reporter; Sharon Watts and Karen Crum, recreation leaders; and Carol Bish and Suzanne Wixstead, health officers. Senior Busy Bee officers are Becky Converse, president; Sandy Converse, vice president; Janet Foos, secretary; Ruth Ann Carey, treasurer; Wealthy Bish, reporter; Carol Wasserbeck and Rosemary Peiffer, recreation leaders; and Janet Zieg, health officer.

Leaders for the 4-H Clubs are Mrs. Vernon Davis for the senior group and Mrs. Earnest Converse for the junior group.

A film on dental health followed the 4-H installation. Next meeting will feature a magician.

BETHLEHEM

At an open meeting of Bethlehem Grange Wednesday night in the grange hall the program will feature films shown by Marion Landes of his recent tour of Europe and hunting trip in Africa. The meeting will begin at 8. Following the meeting, the degree team will hold a practice.

Former Galion Man Appears in Concert By Mezzo-Soprano

GALION—When Galion concert goers attend the next program on the Galion Community Concert Association series, they will be hearing one of Galion's talented sons who is piano accompanist for the artist.

The concert, to be presented Monday night, March 14, at Senior High School auditorium, will feature Miss Mildred Miller, mezzo-soprano of the Metropolitan Opera Co., and her accompanist is Theodore Schaefer. He will be at home on the auditorium stage where he appeared many times while in Galion High School and later for both piano and organ concerts.

Miss Miller, also an Ohio musician, is a former Cleveland girl. She has had Schaefer for accompanist on the concert series for the past three and one-half seasons. The 1954-55 tour is taking them to 12 states in this country and Canada.

Schaefer is the son of the late Mr. and Mrs. C. A. Schaefer of Galion and a brother of Mrs. R. M. Pounder of Galion and Louis Schaefer of Mansfield. He continues as organist and choir master at the National Presbyterian Church in Washington, D. C. His choirs recently were given high praise by the press in an appearance in Washington's Constitution Hall with the Bach Aria Group of New York. Recordings of his chancel choir also have received high commendation.

In May, Schaefer is scheduled to appear as organ soloist with the National Gallery Orchestra on the Festival of American Music.

Schaefer was born in Galion and was graduated from Galion High School. His piano study began under the late Bessie Todd and continued under her teacher in France, Isador Phillipe. Schaefer attended Ohio Wesleyan University, the University of Michigan, and received his master's degree at the School of Sacred Music, Union Theological Seminary, New York City. He has ascribed his early interest in organ and choral work to his sister, Mrs. Pounder, organist of Peace Lutheran Church here. Among his first teachers in organ were Mrs. Wayne Gledhill and Arthur Poister, both of Galion.

Galion High Students Attend Area Conference

GALION — Five Galion High School students qualified to attend the regional world affairs conference in Cincinnati Friday and Saturday.

The trip was sponsored by the Galion Rotary Club. Expenses of two of the delegates are paid by Rotary and the three other students are being sent by high school clubs and student council. Students from West Virginia, Kentucky, Indiana and Ohio are delegates.

Four seniors, Peggy Carter, Darlene Catello, Jane Connolly and Mary Ann Dietz, and one junior, Sue Tracht, were chosen to make the trip. They were top students in American history and problems of democracy and in the Rotary current affairs test.

The theme of the conference was "World Affairs in the Atomic Age," with an address by Walter Cronkite, well - known news analyst.

N.Y. Stock Quotations

NEW YORK (AP)—The stock market was pushed down today by a series of moderate selling waves.

In the early afternoon, prices were off 1 to 4 points in many key areas of the list.

Aircrafts were hardest hit by the selling and displayed the widest losses. No major division was able to stand against the lower trend.

Trading stepped up its pace sharply on the fall and maintained a rate above yesterday's 2,630,000 shares changing hands in a falling market.

The Senate Banking Committee in Washington in its study of the stock market heard a witness who said the country may be in the early stages of a boom-and-bust cycle that could end in a 1929 - style crash.

The day before, the committee under Sen. Fulbright (D - Ark.) asked the Defense Department for details of companies engaged heavily in defense work.

Yesterday's market was lower all around with the aircrafts weak. Today right at the opening prices were lower.

Trading picked up speed rapidly, and three times within the first hour the high speed ticker was unable to keep pace with actual floor transactions. In each instance the lag was brief.

Once the burst of selling had spent itself, prices began to stabilize above their lows.

SILENCE SOUGHT

BEMENT, Ill. (INS)—The National Arts Foundation says quiet is a precious item in American life. Carleton Smith of Bement, tion, has issued this appeal to jukebox record distributors: "Place a blank disk in jukexes to permit customers to buy 10 cents worth of silence. Quiet is still the most expensive item in an American's daily life, and one that is greatly needed for inner peace of mind."

ON WAY HOME. Cpl. Gerald Carhuff, 19, of Brooklyn, N. Y., carries his rifle strapped to his crutch as he prepares to leave Korea for home. He is a member of the Marines First Division, which was in the Korean War from start to finish. A large contingent has been returned to Camp Pendleton, Calif.

Huber-Warco Co. Gets Export-Import Bank Credit Line

The Huber-Warco Co. of Marion is one of three U. S. industries recently granted exporter credit lines by the Export-Import Bank of Washington.

The bank reported that Huber-Warco was authorized for a credit line of $450,000 to assist the local company in financing export sales of road building and maintenance equipment.

Don Howard, president of Huber-Warco, said that this was one of the first authorizations for exporter credit lines made to Ohio firms. It will facilitate sale of Huber-Warco road machinery in foreign nations, he said.

Under the terms of such credit lines, the exporter is required to obtain cash payment of not less than 20 per cent of the invoice value of each export sale to be financed. The exporter must also carry not less than 25 per cent of the deferred payments, the bank announcemet said.

This done, the bank will guarantee up to 75 per cent of the deferred payments on such sale.

This makes it possible for the exporter to carry the obligations of a foreign importer with assurance the debt will be paid. It also means the exporter may sell the obligations to commercial banks or other financial institutions in the U. S. Interest rates on these obligations are not less than five per cent a year payable not less than twice a year, the bank announcement said.

ANNOUNCEMENTS

1-A—CARDS OF THANKS

OUR SINCERE THANKS to the many friends and neighbors, to the Churches, Farm Bureau Councils, Granges, Mother's Clubs and to all that have helped us in any and all ways. We wish to thank you for your love, gifts, words of courage, fellowship and the sincere way in which you have shown me and my family the love that God has inspired in your hearts; not just for myself and family, but for the needs of man as a whole. You have not only given me the things, material things of which I was in need of, but you have given me the will, and the courage to face life no matter what may be the outcome. May God continue to live in your hearts and bless you in that way of life.
Our thanks to all of you.
Mr. and Mrs. Charles Harvey and Son.

I WISH to extend my thanks to my doctors, nurses, nurses aids, friends, family and ministers who were so kind and thoughtful with their gifts, visits, flowers and cards during my stay at the hospital.
Mrs Rose Russell

I WISH to thank all those who sent gifts, cards, flowers, also all those who visited me during my stay at General Hospital, and all of the wonderful staff at General Hospital.
John T. Schmidt.

CRIPPLED HERO. James Horner, 9, plants a kiss of gratitude on brother Jerry's cheek. Jerry, 10, who is crippled, pulled James out of the ice-encrusted Chicago River by wrapping his legs around a bush and "belly flopping" into the frigid waters to "fish" his brother to safety.

$800,000 Budget Waits As Councilmen View TV

IPSWICH, Mass. (AP)—The annual town meeting approved an $800,000 budget last night—but only after some 100 town meeting members were summoned from their television sets to vote.

Town officials reported that competition offered by a highly publicized TV show (the "Peter Pan" musical) delayed the town meeting about an hour while they telephoned members in order to secure a quorum.

Only 335 of the necessary 425 members were on hand at the 7 30 p.m. starting time to vote on the budget which Town Counsel William F. Hayes said may mean a $4 to $5 boost in the tax rate.

New 198-hp Mercury pulls 4 tons up Nob Hill

Tough San Francisco test proves that Mercury's new dual-exhaust Super-Torque V-8 delivers more usable power to the rear wheels —where it counts!

You may never have to haul a 41-foot, 8090-pound trailer. But the fact is that this car—a standard production model—easily pulled this load up one of the steepest hills in the country—a phenomenal demonstration of the tremendous reserve power in this new Mercury Montclair.

There's 198 horsepower in its new SUPER-TORQUE V-8 engine. And there's a new dual-exhaust system and a 4-barrel carburetor to put this power to work. You get far more than just greater top speed. You enjoy split-second getaway, instant response for passing, effortless hill climbing. Brilliant new acceleration at *every* speed from 1 mile per hour to whatever the law allows.

But the Mercury story of 1955 isn't based on power alone. There are new improvements in ball-joint front suspension for even easier handling. There are new improvements in Merc-O-Matic Drive for even quicker action, greater smoothness. There are new improvements in Mercury brakes—20% greater brake lining area for faster stops.

And Mercury is now offered in 3 series of cars. The low Montclair (only 58½ inches high) is being introduced this year for the first time. The beautiful Monterey and lowest-cost Custom Series bring a Mercury within the range of almost every budget—10 stunning models in all. And every model has an all-new body on an all-new chassis—longer, lower, bigger all over.

See these completely new Mercurys at our showrooms now. Take one out on the road for any kind of a test. You'll find out why it pays to own a Mercury.

IT PAYS TO OWN A **MERCURY**—FOR FUTURE STYLING, SUPER POWER

Distaff Planner Designs Floats In Mardi Gras

NEW ORLEANS La (UP)—A pretty 26-year-old suburban businesswoman, Betty Ray Kern, is the brain and hands behind 10 of the fabulous floats which make Mardi Gras world-famous

Betty who learned the intricate designing art from her father chucked a job as an accountant two months ago to devote full-time to the equally exacting task of planning and constructing the towering floats

She believes she is the only distaff designer in the business

She is one of many persons who lock themselves in huge warehouses in the New Orleans area this time of the year to turn out the riots of color which made Carnival parades renowned for their beauty and extravagance

'I think float-making is really woman's work' says the five-foot three-inch 124 pound designer I think women have more of a flair for design than men"

Betty served a six year apprenticeship with her father, Roy A Kern, and this year she swung her first, very own contract" for the Choctaw Krewe parade.

Float building was just a sideline for Kern, but Betty spends a grueling day at the task sometimes as many as 15 hours

Often neighborhood children curious about the floats will poke their heads in the warehouse Betty swears them to secrecy—the float theme always is secret until parade time—then puts them to work.

Betty a high school art major, does all the intricate detail work and her father helps with the structural part She allows the children to do flat work only, 'nothing detailed"

Sometimes, it's the last minute rush that counts in float making Betty says She recalled how last year she discovered the night before the parade that she had skipped one whole side in the final trimming because the float was pushed snug to the wall

'Right then I knew that I wouldn't get any sleep that night" she said "We called in a couple of friends to help us and in three hours we had trimmed the forgotten side It measured just 18 by 6 feet but it looked gigantic to us then"

DOES THE STRANGE NOTATION IN RUGHEAD'S WIG CONTAIN A KEY TO THE WHEREABOUTS OF THE $200,000?
SAM, I'M CONVINCED THOSE MARKS WERE PUT THERE BY THE WIGMAKER—SOME TECHNICAL TERMS, PERHAPS—AND NOT BY RUGHEAD
LOOKS LIKE "17 R DOWN FROM J" AND "2ND W UNDER"—
HEY, GUESS I FORGOT TO TELL YOU GUYS RUGHEADS SHOES HAD NO SHOELACES IN THEM.
NO SHOELACES?

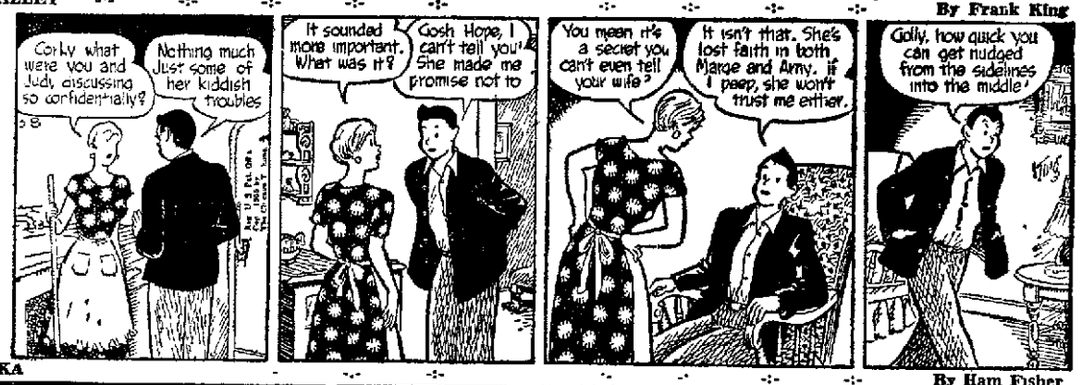
GASOLINE ALLEY By Frank King



Corky what were you and Judy discussing so confidentially?
Nothing much Just some of her kiddish troubles
It sounded more important. What was it?
Gosh Hope, I can't tell you! She made me promise not to
You mean it's a secret you can't even tell your wife?
It isn't that. She's lost faith in both Marge and Army. If I peep, she won't trust me either.
Golly, how quick you can get nudged from the sidelines into the middle!
